TWELFTH-ANNUAL:

CATALOGUE.

A. C. ANDERSON,
SEEDSMAN AND FLORIST,
LEIGH, NEBRASKA.

SELECT SEEDS.

A FIELD OF CUPID SWEET PEAS—FROM A PHOTOGRAPH.
A WORD WITH MY CUSTOMERS.

The pleasure of addressing my numerous cue- 

concerned, fully up our, and I 

wish all of first to thank 

them for their kind 

words and patronage, 

which has been so gen- 

erously bestowed in the past, and it shall be 

my earnest endeavor to please them and merit 

a continuance of their esteemed favors. My 
catalogue is not so elaborate and shows as 
some you may receive, but if you will compare 
prices you will undoubtedly find the balance in 
favor of my modest effort. It is a well-known 
fact that firms who send out expensive cata-

logues must make the prices correspondingly 

higher in order to derive profit on their goods. 

If you have not already tried my seeds and 

plants, send me a trial order and let me demon-

strate by results that good seeds and 

plants can be sold at low prices.

Quality of Seeds.—I guarantee my seeds to be 

the best that can be produced, and far superior 
to job lots and old stock, which are often palm-
ced off on the public for good seed. Those 

which cannot be grown successfully here are 

procured only from responsible growers.

I warrant my Vegetable Seeds to be fresh, pure 

and reliable in every respect, and agree to 

replace any that may not grow, if the cus-
tomer has good cause to think the fault was 

with the seed, but I will in no way be respon-
sible for the crop, if planted the second 

season. All seeds are tested, and under ordinary circumstances will grow. Do not buy old stock or 

worn seeds, when you can get reliable seeds at lower prices.

My Flower Seeds are sold under no guarantee 

whatever, for the reason that many people do 

not give the care required to germinate many 
kinds of flower seeds; but I sell them with the 
honest assurance that they are fresh and pure, 
and equal to any obtainable in every respect. 

I have placed the prices of my flower seeds so 

low that the cost of seed is no excuse for not 
having a flower garden. These low prices are 

made possible by importing and growing only 

them in large quantities.

Sign your Name, give Post Office, County and 

State every time you write.

How to Send Money.—When Money Orders and 

Postal Notes, or Express Money Orders are ob-
tainable do not send stamps, as I cannot use 

them except for paying postage, and if every-

one persists in sending stamps I am at a loss 

what to do with them. Drafts on Chicago and 

New York are acceptable; but private checks 

will be returned.

CLUB TERMS.

Although sold on a close margin, in order to 

induce my customers to make their orders as 

large as possible or get their neighbors to club 

with them, I will allow the following extra-

ordinary large discount:

For $1.00 select to the amount of $1.10. 

For $2.00 select to the amount of $2.20. 

For $3.00 select to the amount of $3.30. 

For $4.00 select to the amount of $4.50. 

For $5.00 select to the amount of $5.50.

For Collections of seeds, or plants, and seeds 

by the ounce, pound, pint or quart must not 

be counted to secure club rates. I pay postage 

unless otherwise specified, and guarantee safe 

arrival.

WONDER COLLECTIONS.

These collections cannot be counted to se-

cure club rates but are strictly nett. Selection 
of varieties is left entirely to me.

No. 1.—6 Pkts. Vegetable Seeds, a choice se-

lection of standard and new varieties. 3c.

SURPRISE COLLECTIONS.

At the close of every season I have a quanti-

ty of some plants unsold, those I will offer to 

my customers in collections at just one-half 
catalogue prices, the selection of kinds and 

varieties being left entirely to me. These col-

lections will not be sent out till after May 

15th. Send any amount above 25 cents and I 

will give you something you have not se-

THOROUGHBRED POULTRY.

BUFF LEGHORNS.

I wish to call particular attention to my se-

lected stock of Thoroughbred Poultry. Every-

one who takes the least interest in poultry should secure stock of new and reliable 

breeds, which not only is much more attrac-

tive, but decidedly more profitable than the 

common stock. It will also pay to infuse new 

blood into your flock occasionally. I can de-

liver eggs by express to any part of the country 

with perfect safety.

BUFF LEGHORNS.

This is similar in general characteristics to 

the other breeds of Leghorns, but in several 

respects are superior. As a consideration to 
those who want fowls for other purposes than egg production. They 

also lay larger and more eggs than the other 

breeds of Leghorns. They are unsusceptible 

for the crop of 1879, nor can they be 

exelled by any breed as egg producers. They 

are invaluable with both fairs and 

farmers, being beautiful, rich buff plumage, 

stylish carriage, etc., attract the eye of the 

former, and their luridous value commends 

them to the latter. Eggs, $1.00 per 

BASSETT PLYMOUTH ROCKS.

This is the great all-purpose fowl and stands 

without comparison for general utility. They 

grow to be a large size, and are unsurpassed as 

market fowl, their plumage, bodies, with full 

breasts, clean, bright yellow legs and yellow 

skin is sure to command the highest price. 

They are excellent egg producers, and go 

mothers, though not invertebrate sitters. 

their blue buff plumage is very attractive. 

Eggs, $1.25 per doz.

WHITE PLYMOUTH ROCKS.

This a counterpart of the Basset breed in 

all respects except color, which is pure white. 

They have no need to be ashamed of their 

record as egg producers, nor has their 

owners. Eggs, $1.25 per doz.

GOLDEN WYANDOTTES.

This is a high-class American bird, com-

bining all the good qualities required to make 
a fowl of the first water. They grow fast, 

make birds of good size, and as broilers are 

by epigrams considered the most delicious. 

They are excellent egg producers, and have 
great merit as winter layers, which makes them 

one of the most profitable breeds to 

keep. Eggs, $1.50 per d.

SILVER SPANGLED HAMURGS.

This is a very popular fowl on account of 

its prolific laying qualities. They are under-

sized by authorities to be the greatest egg pro-

ducers, a single hen having laid over 200 eggs 

a year, and is a long to sit, but continue 

laying during most of the year with the ex-

ception of the nesting season. They are 

very beautiful birds, being spangled, the body of 
each feather white, tipped with black. 

The contrast renders them exceedingly hand-

some. Eggs, $1.00 per d.

All eggs will be carefully packed and sent 

by express on receipt of order.

Address A. C. ANDERSON, Leigh, Nebr.
CHOICE PLANTS.

It is with pleasure I present this list of Choice Plants to my customers, knowing I place it within the means of everyone to get a fine assortment. Although sold at comparatively low prices my plants are in no way inferior to those of other florists, and in one respect are superior to many, they being grown in cool greenhouses so they are not unnecessarily forced, and thus stronger than those propagated in the excessive heat kept in many houses. All plants are sent by mail, postpaid, and I guarantee them to reach their destination safely, and in good condition. Please remember I do not guarantee the plants to live, if they are received in good condition my responsibility ceases, and all claims must be made within five days of receipt of plants.

Plant orders under 25 cents will not be filled. Read club terms on second page of cover before making out your order.

ABUTILON.

This has beautiful maple-like foliage and bell-shaped flowers. Fine summer and winter bloomers.

Snow Storm. This is the finest of the white varieties, and a profuse bloomer. 7c.

Thompsonii Plena. A double variety having flowers of deep orange, shaded with crimson; the foliage is mottled yellow and green. 5c.

Erecta. Produces tube flowers upright. Color, a pleasing shade of rosy pink. 5c.

Golden Fleece. Pure yellow flowers, produced in great abundance. One of the best bloomers. 2c.

Saucier de Bonn. Leaves bright green, distinctly edged with a broad pure white band. Flowers are golden yellow, veined with scarlet. 10c.

ACHANIA MALVAVISCUS.

A very desirable flowering shrub, sometimes called Crystal Maple. Heart-shaped leaves and intense scarlet flowers. 10c.

ACHRYANTHUS.

Fine foliage plants for bedding in masses.

Femina. Yellow and green foliage, pink stems. 7c.

LONDON. Leaves very dark red. One of the best. 6c.

ACHI LLEA.

The Pearl. This is a charming hardy perennial, having double pure white flowers, and blooms profusely. Fine for cemetery planting. 10c.

ANTERICUM VARIEGATUM.

This elegant house plant has dark green leaves, bordered with broad white stripes, and bears spikes of white, star-shaped flowers. 10c.

APIOS TUBEROSA.

A hardy tuberous-rooted climber, with clusters of deep purple flowers, which have a strong violet fragrance. They bloom profusely. 3c.

AGATHEA CELESTIS.

Blue Daisy. Flowers blue, with a yellow disc. Blooms well during winter, and it makes a novel appearance in a collection with its beautiful foliage. 7c.

ANEMONE.

Whirlwind. This is particularly desirable for cemetery planting, being perfectly hardy and is a strong and free bloomer, producing its large semi-double, pure white flower in great abundance. This beautiful plant deserves a place in every garden. 10c.

AGAVE VARIEGATA.

This is the finest variety of the popular Century Plant. Center of leaves green, with broad white stripes on the margin. This makes fine specimens. 20c.

ALOE.

Little Giant. Elegant white flowers, borne erect like candytuft. Fine for pots or bedding, the plants are covered with bloom. 5c.

ALTHEA.

Double Striped. A unique variety. 10c.

AMELOPSIS.

Vocli. A popular hardy climber; grows rapidly, forming a dense mass of deep green foliage. 10c.

AMARYLLIS.

Splendid flowering bulbs for house or garden culture.

Fornossissima. Flowers very large, petals broad and very firm, intense violet crimson. 10c.

Nana. Beautiful clear rose; flowers large and very handsome. One of the oldest and best; blooms all summer, and is greatly admired. 5c.

Candata. Pure white, and the freest bloomer, though not so large. It is also the oldest and best known sort. 7c.

Equestre. One of the best for winter blooming. It produces large flowers of exquisite beauty, being a rich sparkling orange-red, shading to a beautiful green, and terminating with a white star in the center. 10c.

BEGONIA.

Those thrive best in a shady situation. Give them a soil composed of leaf mold and sand.

Argentina Cattata. Oblong bronze leaves, with silvery markings; large bunches of white flowers. 7c.

Argyrosperma Picata. Smooth green leaves, dotted with white; lemon white flowers. 5c.

Begonia Chaleumocher. A charming variety with currant-red flowers; easily grown. 6c.

Braunii. Bright green foliage and waxy white flowers; always in bloom. 5c.

M. de Lesseps. Large leaves, of a rich silvery texture, beautifully spotted with silver. 10c.

Marguerite. Bronze green leaves with purplish cast; trusses of cream and rose flowers. 7c.

Metallica. Dark veined metallic foliage; beautiful mossy pink buds and flowers. 10c.

Multiflora. A very free flowering variety, with deep coral-red flowers. 7c.

Rubra. Immense trusses of waxy scarlet flowers very popular. 12c.

Saundersii. Rich coral-red flowers; a free bloomer and easily grown. 7c.
**BEGONIA—THURSTON.**

Saguirina. Leaves rich olive, under side dark crimson; flowers white. 8c.

Sspilatina Ninnia. Leaves very deep bronze brown; a very showy variety. 10c.

Speculata. Large grape-like leaves, green, with chocolate background, spotted with silver; rich pink flowers. 10c.

Thurston. Large foliage of rich metallic bronze green, deepening into bright red; flower a beautiful shell pink. 10c.

Weltflorina. Flowers a rich shade of pink, stems red; a profuse bloomer. 7c.

**REX BEGONIA.**

These are a brilliant class of foliage plants, grown in a shady situation and avoiding watering the foliage.

**Unnamed Varieties.** These are some of the finest grown. 8c; 3 for 20c.

**TUBEROUS BEGONIA.**

These make fine specimen plants when grown in pots, and are admirably adapted for bedding in moist, shady situations. Their flowers are wonders of size and brilliancy.

**Single Varieties Mixed.** Fine bulbs. 10c.

**BRUGMANSIA.**

This grows quite large, and has beautiful bell-shaped flowers nearly a foot long, which are very fragrant. It is a glorious sight when in full bloom. 12c.

**CHINESE MATRIMONY VINE.**

A vigorous climber, bright purple flowers, produced in profusion, which are succeeded by brilliant scarlet berries. It is perfectly hardy and will succeed in any situation. 7c.

**THE TRICOLOR CUPHEA.**

Cuphea Llavea. Tubular flowers with bright scarlet wings; the flowers are tipped with bright purple, and have pure white stamens. 8c.

**COOPERIA PEDUNCULATA.**

This is the beautiful Evening Star Flower; with elegant white star-shaped flowers, of a delicious primrose fragrance. 7c.

**CARNATION.**

These are fine winter bloomers, and is one of the sweetest flowers grown.

Wm. Scott. A rich beautiful shade of pink. 8c.

Golden Gate. Pure golden-yellow, full and double; a tree and vigorous grower. 7c.

Poriana. Flowers large, four stemmed and freely produced. Color pure white. 7c.

Fernia. The most intense bright scarlet; vigorous habit, and fine flowers. 7c.

Grace Willier. A rich delicate pink; very free flowering. 7c.

**CHRYSTATHEMUM—MRS. ALFREDS HARDY.**

**Sweet Briar.** Beautiful, clear pink; a vigorous and fine grower. 8c.

**J. J. Harrison.** Pearly white, streaked rosy crimson; a very fine variety. 8c.

**CALYCANTHUS.**

A fine hardy shrub of easy culture; flowers purple; very double and deliciously fragrant; remains in bloom for a long time. 12c.

**CALLA LILY.**

This is a great favorite; it grows freely and requires abundance of water while growing. 7c. Large plants, 6c.

**CHRYSTATHEMUMS.**

Harry Gate. Soft lilac pink; one of the finest for exhibition. 8c.

Harry E. Widdie. A rich golden-yellow, without shadiness; petals crisp and stiff. 8c.

Harry May. Rich old gold, slightly incurving; a very fine variety. 7c.

Ivyg. One of the finest of the white varieties. 7c.

Loui Bohn. An exquisite shade of silvery pink; the petals have the peculiar downy appearance of an ostrich feather. 10c.

Mrs. Alfreeds Hardy. This is the beautiful white 'ostrich plume' chrysanthemum; it has a very rich appearance. 12c.

Major Balsam. Clear yellow, incurved; perfect form and finish. 8c.

Mrs. J. G. Whidie. A fine early blooming variety, of a rich clear yellow. 7c.

Snowball. One of the finest of white varieties, has a rich and chaste appearance. 8c.

The Queen. White, of fine size and great substance rounded, incurved and full. 8c.

Mrs. Balsam. A fine early blooming variety, of a rich clear yellow. 7c.

Warrior. Inside of petals deep crimson, outside brilliant bronze. Nothing can compare with this in richness of color and perfect form. 8c.

Wm. Falconer. A magnificent ostrich plume variety. Color a delicate flesh pink, changing to pure white. Flowers of largest size, borne on vigorous stems. 10c.

**COLEUS.**

Nothing can exceed the Coleus where ornamental foliage is wanted for bedding or pot culture; they present so many variations in pleasing and fantastic shades. 8c.

**CANNA.**

Madame Crop. Flowers scarlet, as large as a gloriosa, and borne in immense spikes. Dwarf grower, green foliage, and one of the most abundant bloomers. 10c.

**GRASSULCA CORDATA.**

Succulent plants with fleshy stems and leaves, of strong growth, with a profusion of
Leaves are curious, charming, prolific, and interesting. A great one of the length is GASTERIA sc. Mowers, prettily overlaid magnificently with crimson; of J. V. Thalian, is Enormous, freest and hardy, nice to have; tube is deep crimson, sepals, large; flowers, orange; petals beautifully incurved; sepals, large.

**SINGLE VARIETIES.**

**Crescentia.** Flowers double white tinged with pink, in racemes four or five inches long, one of the finest Hardy shrubs, sc.

**DEUTZIA.** HenJerson. Great beauty, charming, double, with large, loose flowers; very fine bloom; large trusses, and very free blooming, sc.

**DEUTZIA.** Deutzia. Bright crimson-scarlet, shaded violet; arching and compact, sc.

**M. C. Anderson, intense deep scarlet; very large flowers, trusses of good shape, and very freely produced, sc.**

**James Vick.** Flowers and trusses of great size, color deep red, with dark shading, sc. La Fausone. This is beyond a doubt the finest double white geranium; very free blooming, with large trusses, and very fine bloom; long and vigorous, sc.

**Le Prince:** Bright crimson-scarlet, shaded violet; arching and compact, sc.

**M. C. Anderson, intense deep scarlet; very large flowers, trusses of good shape, and very freely produced, sc.**

**Peter Henderson.** Bright orange-scarlet, large trusses, pure white, very fine.

**Remarque.** Flowers deep, rich crimson, finely flushed, trusses very large, sc.

**White Swan.** This is the most floriferous double white geranium ever introduced. It is numerous for cut flowers, show-windows, flowers, sc.

**DOUBLE WHITE FEVERFEW.** This is fine for cut flowers, furnishing an abundance of charming little flowers, sc.

**FUCHSIA.**

**Black Prince.** Sepals; carmine coarla red-dish rose; finely grown, sc.

**Crimson.** A very large and very elegant variety, Dazzling crimson-sepal; corolla deep crimson, and very fine bloom, sc.

**Fantasia.** This is a brilliant new variety; sepals deep crimson; corolla deep crimson, and very fine bloom, sc.

**Phenomenal.** This is one of the largest. Tube and sepals of crimson; corolla very large, and of a rich violet-scarlet, sc.

**The White Rose.** This the grandest of all double white fuchsias. Sepals dazzling scarlet; corolla nearly white, very large and double, sc.

**GASTERIA.**

**A curious species with thick, fleshy, tongues-shaped leaves, which is spotted with white, in raised lump. Flowers on graceful spikes, blooming in winter, sc.**

**CREVILLA ROBUSTA.**

**GROWTH.** This is an interesting plant of upright growth, with delicate fern-like foliage, sc.

**OLECHNIA H. D. VARIETGATA.** A veined form of the common ground ivy, which is perfectly marked with pure white on a bright green ground. It is very fine for baskets, sc.

**GAZANIA.**

**Splendid.** This is an attractive biaket or vase plant, and is also admirable for bedding out. Flowers bright yellow and very showy, sc.

**Variagata.** A variety similar to the above except the foliage is marked with a distinct white line on each side of the long narrow leaves, sc.

**GERANIUM.**

**DOUBLE VARIETIES.**

**Alpine Beauty.** This is a charming white variety; a dwarf and profuse bloomer, sc.

**Grandiflora.** One of the most beautiful flowers are of large size, sc.

**Contrast.** Rich combinations of orange and carmine; dwarf, compact habit, sc.

**Constance de Girardin.** Of a deep soft rose, rather than pink, and fresh and bright, sc.

**Faischerei.** A fine variety; very black and double flowers of a deep rose color, tinted with scarlet, and heavily shaded with maroon, sc.

**M. C. Anderson.** Flowers carmine and white, can move center, each petal delicately edged with carmine, sc.

**NEW FUCHSIA—THE WHITE HOUSE.**
SCENTED GERANIUMS.

This choice will, we think, be exclusively for the fragrance of their foliage, which is indispensable in boquet making.

Mrs. Liebmann. A dwarf variety, with deep scarlet flowers, resembling those of a pelargonium, and exceedingly unequalled as a pot plant or for bedding.

Nutmeg. One of the most fragrant, and very easy to grow.

Ross. The most fragrant of all, and a universal favorite.

GLADIOLUS.

The queen of summer bedders, displaying the greatest blending of colors and contrast, and the most compact flower bulbs in some frost-proof place over winter.

Fine Mixed Gladiolus. 2c. each; 25c. per dozen.

Lemoine's Hybrid Gladiolus. These are noted for their intense, vivid colors. Fine varieties mixed. 4c.; Doz. 35c.

HARBOOTHAMNUS ELEGANS.

This plant is of very easy cultivation, and may be trained as a vine or as a tree. Flowers light carmine; hardy. Fine winter bloomer. 8c.

HELIOTROPE.

Indispensable for pot or bedding plants, admired for their fragrance, and delicately tinted flowers. They require a sunny situation.

Albert Delaux. Foliage beautifully variegated green and yellow; flowers very large, light lavender. A very charming variety. 8c.

Mrs. Burgess. Color fine dark violet; one of the best dark sorts. 5c.

Mrs. David Woods. A rich violet blue, with conspicuous white eye; a fragrant, early and constant bloomer. 7c.

White Lady. Strong, of free branching habit, and is very productive in bloom. The flowers are large, and nearly pure white. 7c.

HEMEROCALLIS.

Dunloptris. A new sort of dwarf and compact form, producing large lily-like blooms of a bright orange color. It is a fine bloomer, perfectly hardy anywhere.

HONEY SUCKLE.

Hollandia. This is an exceedingly valuable hardy climber; flowers pure white, turning to pale yellow, with the fragrance of the Cape Jasmine. Very hardy and vigorous. 5c.

Golden-Leaved. A most beautiful variety, the leaves being variegated with golden-velvety, and green, making it one of the finest of all ornamental foliage plants. It is a large and will grow, and will soon cover the house. Fragrant yellow flowers. 10c.

HYACINTHUS CANDICANS.

This variety has a most majestic appearance, it resembles the Yucca, though not quite so large and grand. It throws up a flower stem about four feet high; richly it is tipped from twenty to thirty pure white, fragrant, drooping, and beautifully scented blooms, admirably adapted for growing in clumps, in borders, or on lawns. Keep bulbs from frost. 10c.

HYDRANGEA.

Hortensis. A well known and favorite old plant, producing large heads of bright flowers, which at first are white and then change to blue and pink. 10c.

Cynoclusa. A valuable new variety, producing trusses of bright rose-colored flowers. The new growth of wood and flower stems are of a useful purple color, giving it a distinct and attractive appearance. 15c.

IVY.

German. Of rapid growth, beautiful green, glossy foliage, fine for house culture. 7c.

Kenninworth. A very pretty drooping or creeping ivy. Leaves small, bright green; indispensable for baskets, vases, etc. 7c.

IPOMOEA.

Learii. This is the Blue Moon-flower, a quick growing plant, having flowers about four inches across, of a rich velvet blue, with five purple rays. 7c.

LANTANA.

Extremely valuable for bedding, and fine for pot culture. Unnamed varieties. 8c.

LILIES.

Nothing can excel the Lily for majestic stateliness and exquisite beauty.

Elegans Aureum Maculatum. A fine sort, producing a number of elegant upright flowers of the most beautiful soft rose. It is one of the most pleasing sorts. 8c.

Waterl. Clean buff flowers, spotted with black; a very free flowering variety. 7c.

MARGUERITE—PARIS DAISY.

This is very valuable for cut flowers, producing daisy-like flowers, a ray of white petals around a yellow disc. Fine for bedding or pot culture. 15c.

MEXICAN PRIMROSE.

Beautiful saucer-shaped flowers of a charming pink, traced with darker lines, of neat appearance. A free bloomer, and of the easiest culture. 5c.

MANETTIA VINE.

A beautiful free growing vine with small tubular shaped flowers of a rich, fiery scarlet color, shading to a bright yellow at the tip of flower. It commences to bloom when very small. A valuable plant for trillresses, vases or baskets. 10c.

PELARGONIUMS.

(LADY WASHINGTON GERANIUMS). These are remarkably for their large showy flowers, and for their colors and markings, unsurpassed as plants for pot culture.

Fine unnamed varieties. 6c.

Crimson King. Bright crimson, very large flowers. 6c.

Crimson Giant. Rich dark crimson, very large flowers. 6c.

Crimson Giant. Rich dark crimson, marked with fine blotches; free growing. 15c.

Fairy Wand. A rich glistering flesh pink, with dark blotches. 10c.

Victor. Deep rose, flushed with white and marked with yellow. 7c.

Beauty. Crimson-maroon shading to white, dark spot in the center of petals. 10c.

Silver Lily. A fine white variety with beautifully marked edges, and of a glistering, rich color.

Strata. A beautiful crimson variety, with pure white stripes; a very free bloomer. 15c.

PHYSIANTHIS ALBENS.

A RICH FLOWERING BUSH, with large, semi-double flowers, produced on nearly leafless branches. 10c.

PLATYRHINUS.

(L. ARBOUMANUS). These are exceedingly hardy, floriferous perennials, growing in the open ground, but may be managed in pots or boxes, to be used in adorning the lawn or plant collection in the summer as they are easily managed to produce an abundance of bloom.

Semi-double White. This is the double white with others. Very large flowers. 12c.

Double Pink. Large, double pink flowers. 15c.

SUMMER FLOWERING OXALIS.

Nothing is so valuable for edging the borders of walks or flower beds, as they bloom continuously throughout the season, and make a fine border. 7c.

Dipla. This is a beautiful pure white variety. 2c. Doz. 15c.

OATHEIGE ORANGE.

This is a beautiful dwarf orange, growing about four feet high and bearing a number of beautiful medium sized oranges, which are very attractive. A special merit, however, is its free blooming quality, it produces its flowers in great profusion, and when in full bloom, it is a sight worth beholding. 15c.

DOUBLE PETUNIA.

The Doubles are the most beautiful of the finest bedding plants for massing, mixed borders or vases. They are more floriferous, and they grow in many colors, combined with the duration of its blooming period renders it particularly valuable in garden decorations. Unnamed varieties. 7c.

HARDY PINKS.

These are excellent for free flowering, hardy, spring blooming plants.

Earl of Carlisle. Various shades of maroon and salmon. 10c.

Mrs. Smith. Very free. 10c.

Her Majesty. The flowers which are of a large size, similar to a carnation, are of the purest white, and are so very free that they give promise of merit. 15c.

Snowdrop. Of dense, low growth, completely covered with snow-white flowers. 8c.

PASSION FLOWERS.

Graceful climbers for window culture, and can be planted out during summer.

Constance Elliott. This is an exquisite fragrant passion flower, very easily grown.

Flordi. A beautiful flower, with a grand combination of colors, such as blue, blue, carmine, etc. It blooms freely when only several feet high. 15c.

PALMS.

Areca Lutescens. This is a very elegant Palm, one of the finest for decorative purposes. Leaves pinnate, the divisions taper-pointed. Very easily grown.

Latania Borbonica. The well known favorite of the Exotic, beautiful for its growth. No plant is more easily grown, and none more tenacious of life, enduring the dust, the cold and heat from open windows, and exposed air of our dwellings. 25c.

Seafortis Elegans. This is a stately Palm, growing quickly, and of easy culture. 30c.

Washingtonia Filifera. It has elegant dark green leaves, and finely arrayed graceful thread-like filaments. The plant is of compact growth, adapted to culture, succeeding in any situation and with any treatment that will keep an ordinary house plant alive.

PARROT'S FEATHER.

An aquatic suitable for hanging baskets. It has trailing stems with whorls of delicately cut leaves. Plant in a water tight hanging basket, with rich soil and sufficient water to keep the leaves covered at all times, and in a short time the beautiful airy stems will droop gracefully over the sides, presenting a charming effect. 7c.

PARDANHUS SINUENSIS.

The Leopard or Blackberry Lily is the most desirable to those who like lily bearing on stalks three to four feet high a large number of orange-yellow, fragrant, blotched, yellow and orange spotted with black and purple flowers. These flowers are succeeded by handsome foliage, which can be cut back from a blackberry, and these are used for ornamentation and for hanging with bouquets of dried grasses. This plant is perfectly hardy.

PELARGONIUM.

(LADY WASHINGTON GERANIUMS). These are remarkable for their large showy flowers, and for their colors and markings, unsurpassed as plants for pot culture.

Fine unnamed varieties. 6c.

Crimson King. Bright crimson, very large flowers. 6c.

Crimson Giant. Rich dark crimson, very large flowers. 6c.
HYBRID TEA ROSE—LA FRANCE.

Mary Washington. A wonderful free blooming white variety. 10c.

HYBRID PERPETUAL ROSES.

This class is hardy, and will withstand the rigor of our severest winters if protected.

Ball of Snow. A finely formed, pure white rose. Beautiful bell-shaped petals. 10c.

General Jacquimont. Brilliant crimson, very large globular form; free bloomer. 10c.

General Washington. Ivory carmine, unusually glossy and brilliant; well-framed. 10c.

Jean Lisbaud. A rich dark maroon, almost black. A very grand rose. 10c.

Madame Planier. A grand white rose; especially fine for cemetery planting. 10c.

Paul Nicot. Unusually large; probably the largest of all; color deep rose. 10c.

SOLANUM.

Grandiflora. A very fine climber for the house and out doors during summer, bears a profusion of beautiful star-shaped, pure white flowers in enormous clusters. 10c.

Azurum. In this variety we have a splendid companion to Solanum. Grandiflora. It is of vigorous growth, climbing rapidly, soon forming a dense mass of bright green. It bears immense panicles of beautiful azure blue flowers that droop gracefully from the suspended vine. It is splendid for garden or pot culture. 5c.

JAPANESE PINK SPIDER LILY.

This plant produces an immense number of rich pinkish salmon flowers during September. The flowers are large, with large undulating petals. Nothing will attract more attention than this beautiful plant, and it will prove an esteemed acquisition in any collection. 10c.

POLYANTHA ROSES.

Dwarf-growing, profuse bloomers, there being sometimes as many as 100 buds and blooms on one plant. They are healthy and thrifty, and quite hardy—a great merit.

Cotihide Souptet. A hybrid Tea and Polyantha rose; pearl white, carmine center. 5c.

Minnow. Full and regular, perfectly double. Clear pink, changing to white. 5c.

Miniature. One of the most beautiful miniature roses, flowers of an exquisite and regular form. Color white, slightly tinged peachy-pink. A profuse bloomer. 1c.

Crimson Rambler. This is a hardy climber with enormous trusses of deep crimson flowers. The flowers are so large, it is a gorgeous sight when in full flower. 15c.

HARDY CLIMBING ROSES.

Baltimore Belle. Pale blush, nearly white; one of the best climbers. 5c.

Seven Sisters. Blush changing to crimson, free flowering and fragrant. 10c.

STAPELIA VARIEGATA.

An exceedingly curious and interesting succulent plant, a fine companion for cacti, with which it is sometimes crossed though it does not bear the closest relationship to them. From the base of the fleshy stems appear curious looking five-cornered buds, which gradually swell until, with a slight snap, they fly open and the flower stands revealed—a perfect star of very thick, leathery petals which are golden yellow, thickly spotted with dark brown. 10c.

TRANSVERSE ZEALANICA.

A decorative house plant, with long sword-like leaves, beautifully striped crosswise with white variegations on a dark green ground. 1c.

SAXIFRAGA SARMENTOSA.

The strawberry saxifrage, for baskets. 5c.

TRADESCANTIA.

A good basket plant, commonly called Wandering Jew. Very pretty and effecting the soil. Multicolor. Foliage variegated bronze, green, crimson and sometimes white. 5c.

Repen Vittata. Bright green stripe white, very pretty. 5c.

TUBEROSE.

Producing many beautiful pure white, double flowers on upright stalks; delightfully fragrant.

Excelsior Pearl. Large bulbs that is sure to give satisfaction. 5c.

Albino. This is a fine new single variety, bearing large spikes of bloom, and is at least one month earlier than the double sort. Foliage is variegated white and yellow. 5c.

TRITOMA UVARIA.

A splendid half-hardy summer and autumn blooming plant, producing magnificent spikes of rich orange red. Protect well, or keep in pots during winter. 10c.

VERBENA.

Nothing can equal Verbena as a bedding plant if flowers is requisite, as no other plant is so profuse in bloom or present so many lovely colors. Unexcelled varieties. 5c.

VERONICA.

Plants producing during full and winter dense spikes of flowers of a beautiful rose color, changing to white. Few plants are more effective or pleasing. 5c.

VINCA.

Harrisoni. A variety of strong growth. Margin of leaves a rich dark green, with central portion yellowish-green. Light blue, star-shaped flowers. 5c.

Variegata. Fine basket plant; leaves glossy green, broadly margined with white. 5c.

VIOLETS.

Battisoni. A variety of strong growth. Margin of leaves a rich dark green, with central portion yellowish-green. Light blue, star-shaped flowers. 5c.

Marie Louise. Bold, fine flowers, very fragrant and very prolific. The color is of a dark blue, flowers double. This is the favorite blue Violet. 5c.

Swan's White. Vigorous and healthy, bearing in great numbers very large, perfectly double flowers of pure snowy whiteness and unexcelled fragrance. 5c.

PINK WATER HYACINTH.

This is a remarkable plant of an aquatic nature, floating on top of the water, roots growing down into the soil. It bears spikes of rich orchid-like flowers, of a beautiful soft blue rose, the upper petal blotched with metallic blue and marked with a golden yellow spot. It grows best in water in the open air during summer. Place rich soil in the bottom of the vessel in which it is grown. 10c.
CHOICE FLOWER SEEDS.

My Flower Seeds are fresh and of the best possible quality. I think I can please you in flower seeds, since I have spared no pains to secure the very best obtainable. Seeds and plants may be ordered together to secure chitting terms, but the plant part of the order must not be less than 25c. EXPLANATION OF ABBREVIATIONS. a, annual; b, biennial; p, perennial; h, hardy; h h, half hardy; t, tender; g, greenhouse.

BURGES'S DEFIANCE BALSAM.

ABROCHIA. A pretty creeping veronica-like plant; most exquisite fragrance. h a. 3c.

ABUTILON. Stately plants with maple-like foliage and beautiful bell-shaped flowers. g p. 9c.

ACACIA. Elongated shrubs with fuscous flowers. Set seed in warm water before sowing. g p. 4c.

HIBISCUS—CRIMSON EYE.

One of our finest blossom plants, sporting into an endless variety of colors and shades. I offer a selected strain. t. p. 7c.

COLEUS.

This is a free flowering and attractive plant, of easy culture and hardy in most areas. A. 3c.

GENTIAN.

A charming hardy perennial, with rich blue flowers which blooms early in May. Fine for flower beds. 5c.

GERANIUM.

Popular garden and house plants. Fine varieties in mixture. t. p. 7c.

Few flowers can equal these for gorgeous display throughout the summer. h. b. 4c.

GLOXINIA.

A superb genus of house plants, profuse bloomers of great beauty and diversity of colors and shades, g. p. 6c.

GODEIA.

Beautiful and delicate flowers that deserve a place in every garden. h. a. 3c.

GOMPHRENA.

A beautiful everlasting of fine globular shape. Mixed colors. h. b. 4c.

GOUDS.

Rapid growing, interesting plants, with ornamental foliage, and varieties of singular shaped fruit. t. a. 3c.

HIBISCUS.

Crimson Eye. This is a stately plant with flowers of immense size, often measuring six inches in diameter. The color is pure white, with a violet eye, forming an effective contrast. It is hardy perennial, of the easiest culture and will succeed anywhere. 5c.

HELCRYSUM.

A fine everlasting, extra double; rich dark colors. h. a. 3c.

HOLLYHOCK.

This is an old favorite. My strain of double Hollyhock is unsurpassed for richness of color and size. 5c.

HELiotrope.

Deliciously fragrant plants, excellent for bedding and pot culture. t. p. 6c.

HYACINTHUS CANDENS.

Large growing summer blooming hyacinth, with pure white, bell-shaped flowers, on erect stems two to three feet high. 4c.

ICE PLANT.

A fine basket plant, with glittering, icy foliage and white flowers, h. a. 4c.

IMPATIENS SULTANI.

A fine pot plant, also very desirable for planting out during summer, producing its carmine flowers in great abundance. t. p. 7c.

IPOMOEA.

Quamoclit. This is the popular Cypress Vine, a climber with delicately cut foliage and pretty white and scarlet flowers. 3c.

KOSTELETZKIA.

This is a hardy perennial attaining a height of three feet, it is so floriferous the entire summer as to present a solid mass of pink. The flowers are two inches in diameter, round and regular, color bright pink with delicate veining. It is easily grown and will thrive in any situation. 8c.

LANTANA.

Handsome, free-blooming plants, very effective either for pot culture or bedding. The flowers have changeable colors. t. p. 6c.

LOBELIA.

Low growing, trailing plants, excellent for beds, borders, hanging baskets and vases; beautiful colored flowers. 4c.

LYCNIS.

Hardy perennial producing fine clusters of flowers of various colors. 3c.

MARIGOLD.

This is a very beautiful and striking plant, with a great variety of colors, h. a. 6c. Large African. Tall, double, orange, brown and yellow colors in mixture, 3c.

Dwarf French. Fine colors, very double；fine mixed, 3c.

MAURANDIA.

A beautiful climber, suitable for house and out-door culture, producing its white and purple flowers in abundance all summer, t. p. 6c.

MARRUBIUM.

This is the popular Four O’Clock, a universal favorite and a most satisfactory bloomer, h. a. 3c.

MIGNONETTE.

The delightful fragrance and easy culture of this old plant makes it one of the most popular annuals.

Grandiflora. A fine mixture of large flowering varieties. 3c.

Golden Queen. A new yellow variety. 4c.

Machele. A new red variety, fine for pot culture. 4c.

Miles’ Spiral. Finest white variety. 4c.

MYOSOTIS. (Forget-Me-Not.)

A perennial plant that blooms the first season it starts early. Succeeds in a moist shady situation. It bears small, lovely blue flowers that are much prized for bouquets, 4c.

This is one of the brightest of our garden plants. h. a.
New MIKADO POPPY

Tall mixed. Very fine climbers. 3c.
Dwarf Varieties. These are excellent for bedding.

Beauty. Scarlet and yellow. 3c.
Empress of India. Scarlet, dark foliage. 4c.
Lady Bird. Yellow and crimson. 4c.
Roseum. Rose rose. 3c.
Pearl. Creamy white. 4c.
Dwarf Mixed. 3c.

NICOTIANA
Affinis. A rich ornamental plant with large fragrant white flowers. Fine for groups; may be taken into the house in the fall where it will bloom during winter. 3c.
Colossea. Attains a height of six feet during one summer; immense leaves, at first rose and violet, afterwars changing to deep green with red nerves. A gigantic and imposing ornamental-foliaged plant for lawns, giving an elegant tropical effect. 1 p. 6c.

Giant Red Flowered. The foliage is luxuriant and tropical in appearance; plants surmounted with immense clusters of rich crimson flowers. They grow rapidly, about five feet in height and commence to bloom in July and continue until frost. h p. 5c.

NIGELLA
Showy and curious flowers, and finely divided, handsome foliage. h a. 3c.

PANSY
I offer some of the finest strains of Pansies that can be secured. h b.

Superb Mixture. Very fine varieties. 4c.
International Prize. These are wonders in size, perfection of form, and beauty. 5c.
Trompeau. Extremely large flowers, with fine colors and beautiful markings. 6c.

King of the Blacks. Almost cobalt black. 4c.
Silver Banded. Violet, with beautiful border; very charming variety. 5c.
Snow Queen. A charming white variety. 4c.
Gold Banded. Dark mahogany, with golden edge. 5c.

DOUBLE PETUNIA

Improved Striped. A new variety richly marked with distinct stripes. 5c.

Dark Blue. Large and fine. 4c.

Light Blue. Large and grand. 4c.

Cassier. This is the Five Blotched Giant, one of the largest and the most gorgeously colored. 5c.

PETUNIA
A splendid plant for bedding and massing. 10 Double Fimbriata Grandiflora. My excellent strain will produce many fine double fringed flowers. 5c.

Finest mixed. 3c.

PHLOX DRUMONDI
For a splendid mass of color and a constant display, this annual cannot be equaled, the colors ranging from the purest white to the deepest crimson. I offer a strain of the best large flowering varieties in superb mixture. 4c.

PERENNIAL PHLOX
Few hardy flowers can compare with this for effect and display. h p. 5c.

PLATYCODON GRANDIFLORA
A hardy plant with star-shaped flowers 2 inches across, of beautiful blue and white colors. h p. 5c.

POPPY
One of the most showy garden plants; flowers large and very brilliant. h a.

SHIRLEY POPPY

BRILLIANT POPPY

American Flag. This new variety is very double and charmingly colored; a pure white ground margined dark orange scarlet. Very large and conspicuous. 5c.

Brilliant. This new variety has finely fringed petals, which are pure white, with a pink tinge, scarlet, rose, purple and other shades. The ends of the petals are frequently of a deeper tint. Very brilliant and dazzling. 6c.

New Mikado. Of pure white and brilliant crimson-scarlet; large, double flowers of quaint, artistic beauty, with petals deeply cut and fringed. 4c.

Shirley. A new strain of marvellous beauty. The colors range through all shades of delicate rose, pink, carmine, and brilliant crimson. Many of the flowers are edged with white. 3c.

Golden Gate. Recall to mind every color you have seen in Poppies, then imagine every conceivable combination of colors,—striped, blotted, edged, and bordered, on both single, semi-double, and double flowers,—and you will have but a faint idea of the wonderfully varied beauty of the new Golden Gate Poppies. No sight will call forth more expressions of wonder than a large block of these Poppies,—with thousands of open flowers of which seemingly there are no two alike. 3c.

Double mixed. A very fine strain. 3c.
PORTULACA.
Low growing plants of easy culture, blooming all summer. Fine for massing in beds. 1 a. Double Mixed. 6c.

PRIMULA. (Chinese Primrose.)
One of the most satisfactory house plants that can be grown from seed. Superfine Mixture. Finest fringed. 6c.

RICINUS.
Zanorabienisis. This grows to mammoth proportions, the plant attaining a height of twelve to fourteen feet. The leaves are fully two and a half feet broad, beautifully lobed; the whole plant has a distinct and novel appearance, enhanced in the sunshine by a bright metallic hue; they charm at first sight, and their usefulness is very great. Solitary on the lawn, it makes a perfect pyramid of foliage, thickly set with gigantic leaves; a dozen in a large bed make a most picturesque sight. 8e.

Mixed Varieties. Very fine sorts. 3c.

SALPICOLIDES.
Richly colored, marbled and penciled blossoms. Of easy culture and great beauty. b.a. Grandiflora. The best. 4c.

SCABiosa. (Mourning Bride.)
Beautiful double flowers of rich colors. Useful for bouquets and cut flowers. b.a. 3c.

SCHINUS MOLLE.
A graceful evergreen tree, with small white flowers, followed by lovely clusters of small red berries. Fine for pots. 3c.

SMILAX.
A charming climber for the house. Fine for decorations and indispensable for bouquet work where delicate foliage is desirable. 1 p. 5c.

SENSITIVE PLANT.
A curious and interesting plant, with pinkish white flowers; the leaves close and droop when being touched. t. a. 3c.

STOCK.
The Stock is one of the most popular plants, either for bedding, massing or pot culture; for brilliancy and diversity of color or profusion and duration of bloom it is unsurpassed. Best German. Large-Flowering Ten Weeks Stocks Mixed. 6c.

THUNBERGIA.
A free-blooming climber well adapted for the house or warm situations out of doors, h.h.a. 4c.

TORENIAS FOURNIERI.
Fine for house and outdoor culture. They are covered with one mass of bloom throughout the season. Flowers velvety-blue, with spots of dark blue and a bright yellow throat. 6c.

SWEET PEA.
CUPID. This is the greatest novelty of the season, grows only 5 inches high; the foliage is very dark green; blossoms pure waxy-white, of unequalled substance, and full size. The plant does not grow more than 12 to 15 inches in diameter. The stems are about 4 inches long, bearing two or three blossoms, all very near the end of the stem. It is a wonderfully free bloomer, and begins to flower as early as May and continues until October. It is admirably adapted for pot culture. 3c. 12 pkts. 35c.

Blanche Burpee. This is a pure white of most exquisite form and immense size, and is a wonderfully free bloomer; it usually bears three flowers on immense long stout stems, the plant being literally bedecked with bloom.
This charming variety is pronounced by everybody who has seen it as the finest white ever produced, being a perfectly finished flower of the purest white. It may be had in bloom very early if sown in pots or boxes in January, and transplanted to the open ground as soon as March, as the ground is fit. This variety is a robust grower, and the flowers are veritable giants among sweet peas, 14c. 6d.

Each Head Large. This non-sweet pea is absolutely pure white, as clean as alabaster and glistening as satin. The flowers are extra large, of remarkable substance, and in form perfection; in perfection of bloom it is a phenomenon, one plant having produced 165 sprays of bloom in one season, 4c. oz. 1c. *Adena.* Deep rose and carnation, 3c. oz. 5c. 

*American Belle.* This a wonderful new variety; the standard is rose, and the wings are white with crimson spots. 5c. 

*Apricot Blossom.* Pink and white, 2c. oz. 5c. *Bee's Ferry.* Rose and white, 3c. oz. 5c. 

*Carl Chest.* A tri-color variety, 3c. oz. 5c. 

*Orange Prince.* Orange-scarlet, 3c. 10c. 7c. 

*Princeton.* White, clouded and striped with blue and purple, 3c. oz. 5c. 

*Crimson Rose.* Tart crimson. 1c. oz. 5c. 

This charming variety is pronounced by everybody who has seen it as the finest white ever produced, being a perfectly finished flower of the purest white. It may be had in flower very early if sown in pots or boxes in January, and transplanted to the open ground as soon as March as the ground is fit. This variety is a robust grower, and the flowers are veritable giants among sweet peas, 14c. 6d.

*HARELEQUIN.* 

Harelequin. This is very attractive, bearing numerous large heads of flowers, from 4 to 5 inches across, each head being composed of different colored flowers, such as dark crimson, white, pink, flesh, striped, etc.; these colors blending against each other in charming confusion, produces a wonderful effect, and brings out a richness and vividness of coloring by the sharp contrast to that we have never before seen equaled. 1c.

*VALESIANA.* 

A beautiful border plant bearing large clusters of small scarlet, white and red flowers. Very fragrant and fine for bouquets or cut flowers. 1c. 10c. 1c.

*VERBENA.* 

This is a popular plant for bedding, making a gorgeous display of flowers during summer and autumn. I offer a superb strain of the choicest large flowering varieties in charming colors, 4c.

*VIOLA ODORATA.* (Sweet Violet.) This is a well-known favorite of profuse blooming qualities, and delicious fragrance. If removed in the fall it will bloom in the house during winter. 1c. 5c.

*WALLFLOWER.* 

Nothing can excel this for fragrance and beauty. The large double flowers are charming for bouquets. 1c. 10c. 1c.

*YUCCA FILAMENTOSA.* A beautiful hardy perennial producing fine specimens; bell-shaped flowers. 4c.

*ZINNIA.* 

Double Zinnias are quite an acquisition in our list of garden favorites. Highlights the Dubuque in beauty and brilliancy. 1c. Finest double mixture, splendid. 3c.
VEGETABLE SEEDS

ASPARAGUS

Canover's Colossal. Large, tender and of good quality. Pkt. 3c, oz. 6c, 14 lb. 15c.

Palmetto. Strong and robust growth, a new and superior variety. Pkt. 4c, oz. 7c.

BEANS—BUSH

Early Mohawk. Very hardy, early and productive. Excellent as a string bean, the pods being very thick, succulent and tender. Pkt. 6c, pint 16c, quart 60c, ½ bu. $1.00, $1.50, bu. $3.00.

Early Red Valentine. One of the best, having round fleshy pods, which mature quickly and remain tender and brittle very long. Pkt. 6c, pt. 16c, qt. 50c, ½ bu. $1.00, $1.50, bu. $3.50.

New Golden-Eyed Wax. This is a universal favorite with market gardeners on account of its hardy and prolific character. Very early and vigorous, yielding profusely. Pods are entirely stringless and of unequalled flavor. Pkt. 6c, pt. 25c, qt. 60c, ½ bu. $1.50, $2.00, bu. $3.75, $5.50.

Dwarf German Black Wax. The finest of all snap sorts. Pods transparent and snap like pipe stems. Rolls rich as butter. Pkt. 6c, pt. 25c, qt. 50c, ½ bu. $1.50, $2.50, bu. $3.50.

Henderson's Bush Lima. A veritable acquisition that is destined to hold the prominent place accorded it on introduction. Dwarf, compact bush form, requiring no support, and produces enormous crops of delicious lima beans. The earliest of the limas. Pkt. 6c, pt. 25c, qt. 40c.

Burpee's Bush Lima Bean. This is the only true bush form of the large lima, distinct and superior in every way—in its splendidly vigorous, upright, bushy habit of growth, great uniformity and trueness of type, and always bearing the delicious large lima beans in great abundance. There is absolutely nothing to compare with it. The largest lima beans can now be raised in quantity at small cost, without the expense and labor attached to poles. Don't fail to try this! Pkt. 8c, pt. 35c, qt. 50c.

BEANS—POLE

Large Lima. Large and vigorous growth; luscious flavor. Pkt. 6c, pt. 35c, qt. 60c.

Dutch Case-Kale. Pods long, green and flat; can be either snapped or shaded when used. Very early and productive. Pkt. 8c, pt. 25c, qt. 35c.

BEETS

Edmund's Early Turnip. One of the most uniform of all turnip beets, with very small top, bronzy red. The bulbs are handsome and round, very smooth and of good marketable size. In quality it ranks with the best; exceedingly tender and sweet; skin deep blood-red; flesh dark red. Pkt. 3c, oz. 5c, ½ lb. 15c, lb. 40c.

Egyptian Blood Turnip. A standard sort, and by many considered the best variety for forcing, being from ten to twelve days earlier than the old blood turnip. The roots are large in size; hard, crisp and tender when young. Pkt. 3c, oz. 6c, ¼ lb. 15c, lb. 40c.

Edling's An improved extra early sort. Remarkable for its rapid growth, extreme smallness of top and extra fine quality. Perfectly smooth and round; skin and flesh intense red; very fine grained and sweet. Pkt. 6c, oz. 10c, ½ lb. 25c, lb. 60c.

Long Dark Blood. Long, smooth, growing to good size; half our own. Dark red blood-beet; top small, dark red, of upright growth; keeps well. Pkt. 3c, oz. 5c, ½ lb. 12c, lb. 40c.

MANGEL WURZEL AND SUGAR BEETS.

The Sugar and Mangel Wurzel varieties are grown for feeding stock. Sow in April or May; drill in drills 3½ feet apart, and afterwards thin out to stand one foot apart in the rows; keep well cultivated. One ounce will sow a drill 100 feet in length; five or six pounds are required to the acre. See also page 3.

Golden Tankard. A distinct and superior strain of yellow or golden-fleshed mangel; an enormous cropper. Particularly well adapted to milk-producing, and in. quality, and on this account is highly priced by dairymen. Pkt. 3c, oz. 4c, ¼ lb. 12c, lb. 35c.

Mammoth Long Red. A variety producing roots of enormous size, and is, as a rule, more productive in shape, with a small top. Pkt. 3c, oz. 10c, ¼ lb. 35c, lb. 65c.

New Danish Improved Sugar. This new sugar beet is particularly adapted for stock feeding. It is a large root, moderately productive in size, and is superior to Mangels for feeding purposes on account of its rich contents of sugar. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 50c.

Lane's Imperial Sugar. An improved variety of the French sugar beet, containing a great percentage of sugar than the ordinary varieties. Pkt. 5c, oz. 5c, ½ lb. 15c, lb. 35c.

BORAGE OR KALE

Green Curled Scolop. A hardy, heat-resistant variety, but spreading under good cultivation to three feet in diameter; leaves of a bright green, beautifully curled. Pkt. 4c, oz. 10c, ¼ lb. 35c.

BRUSSEL SPROUTS.

I produce the same as late cabbage. Pkt. 4c, oz. 10c, ¼ lb. 35c.

CABBAGE

I take pleasure in introducing to my customers a superior strain of Pugil-Sound cabbage, at 10c. I am confident it will prove much superior to eastern and imported stock, as it is grown on fertile ground, is peculiarly suited to the development of cabbage and cauliflower seeds, indeed, such is the reputation of the seed grown here that many of our largest growers will plant nothing else when a fair supply of Pugil-Sound shows such marked superiority. The Heads are pyramid in shape with round ends. There has been no such cabbage introduced as the best to-day. Pkt. 3c, oz. 12c, ¼ lb. 45c, lb. 90c.

Early Winningstad. A well known and very popular early variety, in season very close
to the “Wakefield;” heads large, decidedly conical, leaves bright, glossy green; heads solid and hard, even in summer. This is a sure-heading variety, valuable not only for early use, but also for a winter cabbage. Pkt. 3c, oz. 10c, ½ lb. 30c, $1.50.

**Burpee’s All Head Early Cabbage**

**Succeeding.** This grand new cabbage is undoubtedly the best of its class, being very large, solid and compact, with few outer leaves; a sure cropper and can be used for medium, late or a winter crop. Pkt. 3c, oz. 15c, ½ lb. 40c, $1.50.

**Surehead.** Produces large, round, flattened heads, of the flat Dutch type, and is remarkable for its certainty to head. It is all head and always one to head, even where other varieties fail. The heads are remarkably uniform, very hard, firm and fine in texture, and ordinarily weigh from 20 to 15 pounds each. It is very sweet flavored, has scarcely any loose leaves, keeps well, and is good for shipping. Pkt. 4c, oz. 15c, ½ lb. 60c, $1.75.

**Marblehead Mammoth Drumhead.** The largest cabbage known, weighing in some instances over fifty pounds. Under good cultivation it has been grown averaging over thirty pounds each head. Pkt. 3c, oz. 15c, ½ lb. 40c, $1.40.

**Summer King or World Sealer.** A new strain of late cabbage highly spoken of by all gardeners who have tested it. The heads are enormous and exceedingly solid with few outer leaves that it is said to produce a great weight of good cabbage ground than any other variety. Pkt. 3c, oz. 15c, ½ lb. 40c, $1.40.

**Mammoth Late Flat Dutch.** This is the money maker among late cabbages for gardeners and for family use it ranks high. Heads are large, round, very solid, broad, flat on top and of a beautiful bluish-green color, with but few outside leaves. The quality is fine and flavor excellent, heads being when open, crisp and white. You will make no mistake in planting this truly good variety. Pkt. 3c, oz. 15c, ½ lb. 40c, $1.40.

**Red Dutch.** Very hardy, upright heads, round at top, medium size. It is of a dark red or purple color and highly esteemed for pickling. Pkt. 4c, oz. 12c, ½ lb. 30c, $1.20.

**New Danish Sugar Beet.** One of the most popular of all varieties. A favorite for early crop. In color it is a deep, beautiful orange, flesh finely granulated and of agreeable flavor, tops small, has a short, stump shaped root, large at top, therefore being easily pulled. Grows well in shallow soil, of fine quality, yields well and sells well. Pkt. 3c, oz. 10c, ½ lb. 20c, 1 lb. 30c, $1.00.

**Long Orange.** One of the most desirable of all carrots, either for garden or field culture. It grows to a large size, fair specimens averaging 12 inches in length and three inches in diameter at the top. All who have cattle should raise a surplus of this carrot for feeding milk cows during winter. It increases the flow of milk and imparts to butter a delicious flavor and rich, golden color. Pkt. 3c, oz. 10c, ½ lb. 20c, 1 lb. 40c.

**White Belgian.** A splendid variety for fattening stock. The roots are surprisingly mammoth in size and the productiveness is amazing. Ordinarily yield fifty tons and over per acre. Exceptionally desirable for its great milk producing qualities. My stock is of superior quality and will give you the very best of satisfaction. Pkt. 3c, oz. 15c, ½ lb. 40c, $1.40.

**CELEY.**

**Golden Self-Blanching.** A French variety which, though but recently introduced, has become a general favorite on account of its extreme case of culture, its crisp texture and fine flavor, and its exceedingly beautiful appearance. No blanching nor blanching whatever is required, but as the name implies, the large golden heart is self-blanched, even the outer stalks becoming a delicate, creamy white. Pkt. 4c, oz. 20c, $1.00.

**New Giant Pascal.** The latest and best addition to the list. A selection from the Golden Self-Blanching, adding to the general good qualities of its parent, superior keeping quality. Stalk very large, thick, solid, crisp and of a rich, nutty flavor, free from any trace of bitterness. It blanches easily and quick, and retains its freshness a long time after being marketed. The heart is golden-yellow and of attractive appearance. Pkt. 4c, oz. 20c, $1.00.

**White Plum.** This is a natural self-blanching variety, the inner leaves and stalks being white, it only requires the earth to be slightly drawn about it to be blanched to perfection. Pkt. 4c, oz. 15c, ½ lb. 30c.

**Turnip.** Rooted or Celeriac. A variety of celery having turnip-shaped root, which may be cooked and sliced and used with vinegar, making a most excellent salad. Cultivated in the same manner as celery. Pkt. 4c, oz. 15c, ½ lb. 30c.
CAULIFLOWER.

Earliest Selected Dwarf Erfurt. While we do not claim to have a better strain of this splendid variety than anybody else, we are confident that ours cannot be surpassed. Our stock is of the very finest that can be secured, and grown from only the choicest specimens. The heads are of a beautiful ivory white, very firm and fine-grained, and measure from eight to ten inches in diameter. For forcing under glass, or for planting later in the open ground, it has no superior. Pkt. 3c, oz. 65c, lb. $1.25.

Extra Early Paris. A very reliable early variety. Good for forcing, produces a good head of dwarf form, with solid, pure white heads of superior quality. Should be planted very early and will please you as a forcing, marketing or family variety. Pkt. 5c, oz. 90c, lb. $3.50.

SWEET CORN.

Prices quoted for cobs or quarts include postage. If ordered by express deduct 5c per quart. Pecks and bushels is shipped at purchasers expense.

Cory. The earliest of all and the very best extra early sweet corn. Has a large ear, considering the size of the stalk, small cob, well filled with broad grains that are very sweet and of fine quality. The most profitable of all varieties to grow for very early market. Pkt. 6c, lb. 65c, oz. 70c, bu. 75c.

Early Minnesota. The old and deservedly popular Standard Early Sweet Corn, ripens a little earlier than Cory. The ears of good size, sweet and well favored. Stalks grow about two feet high. Pkt. 6c, lb. 6c, oz. 7c, bu. 75c.

Perry's Hybrid. A very finely early variety, fully as early as the Minnesota and even much larger and well filled to the end. Pkt. 6c, lb. 65c, oz. 75c, bu. 75c.

Stowell's Evergreen. The Standard late variety. If planted at the same time with earlier kinds, will keep the table supplied till October. It is hardy and productive, very tender and succulent, remaining a long time in a fresh condition, suitable for boiling. Pkt. 6c, lb. 6c, oz. 7c, bu. 75c.

POPCORN.

Mapledale Prenice. This new variety is beyond a doubt, the most productive pop corn grown. Grain white and clear, popping large, and of the best possible quality. Pkt. 6c, lb. 6c, oz. 7c, bu. 75c.

CRESS.

Curled. Extensively used as a small salad; the leaves while young have a warm pungent taste. Sow rather thick in shallow drills and at short intervals during the season. Pkt. 3c, oz. 6c, lb. 65c.

CUCUMBER.

Early Russian. The earliest variety in cultivation; small, hardy and very productive. Vines vigorous and productive. Fruit three to four inches long, thick, oval, pointed at each end, and covered with fine small spines. Pkt. 5c, oz. 6c, $1.25.

Improved Extra Early White Spine. This is a favorite variety, producing fruit from six to eight inches in length, and two to three inches in diameter, of a handsome light green, flesh crisp and of fine flavor. Good for forcing and for out doors. Pkt. 3c, oz. 6c, lb. 65c.

Early Cluster. Vines vigorous, producing the bulk of the crop near the root, and in clusters. Fruit short, holding full size to each end. Pkt. 3c, oz. 6c, $1.25, lb. 65c.

Nichol's Medium Green. An excellent pickling variety; color dark Green, flesh crisp and tender; of medium size and very productive. Always straight and smooth. It is also good for forcing. Pkt. 3c, oz. 6c, 5c, lb. 6c.

Improved Long Green. Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as shorter sorts; fruit about twelve inches long, firm and crisp. The young fruit makes one of the best of any for sweet pickles. Pkt. 3c, oz. 6c, lb. 65c.

Livingston's Evergreen. A new variety fast becoming very popular. It is very hardy, exceedingly early, and the cucumbers retain their green color longer than any other sort. It is one of the very best varieties for forcing being very crisp and of good quality. Pkt. 3c, oz. 6c, lb. 65c.

LONG GREEN CUCUMBER.

EARLIEST EARLY CAULIFLOWER.

EGG PLANT.

Improved New York Purple. The best variety in cultivation, a sure cropper and of fine quality. Plants large, vigorous, with long green leaves; fruit very large, oval, deep purple; flesh white, tender and of superior quality. Pkt. 5c, oz. 6c, lb. 1.25.

KOVI'S RAS. II

A vegetable intermediate between the Turnip and Cabbage, combining the flavor of both. The bulbous-shaped growth is used when very small and tender, at which period they are delicious, properly prepared. Sow and treat similar to early Cabbage.

White Vienna. Very early, forming a small, handsome white bulb; the best early table variety. Pkt. 6c, oz. 6c, lb. 65c.

LEEK.

Broad London Flag. Large, with broad leaves; growing on outside like the inner stem is large, and of an agreeable flavor. Pkt. 6c, oz. 6c, lb. 65c.

LETTUCE.

New Iceberg. A handsome new cabbage lettuce of fine quality. The large, early leaves which cover the outside of the solid heads are of a light green, with a very slight reddish tinge at the edges; they have small indents which hold the dewdrops, and they are thus kept fresh and show a remarkably crystalline appearance, which will warrants on being shipped as new Iceberg. Pkt. 6c, oz. 6c, lb. 65c, bu. 50c.

DENVER MARKET. An early variety valuable either for forcing or in open ground. It forms large, solid heads, of a good, light green color and is very slow to run to seed. The leaves are marked and blushed like Savoy Cabbage, and are very crisp and tender. Pkt. 6c, oz. 6c, lb. 65c, bu. 50c.

Hanson. The best out-door lettuce, has a very little tendency to run to seed. The plant forms a large flat head very solid, resembling a head of cabbage. It is very light in color, delicato in flavor, crisp, tender and sweet. Pkt. 6c, oz. 6c, lb. 65c, bu. 50c.

Tomhannack. A grand variety, forms a beautiful plant; leaves grow upright, the upper part of the outer leaves turning outward very gracefully and are handsomely wrinkle, the edges of the outer leaves are of a glossy reddish green, very ornamental and fresh in appearance. Within, the leaves are almost white, very crisp and tender. It grows very quickly, is ready to cut early and is hardy in two weeks in the field or cold frame. Pkt. 6c, oz. 6c, lb. 65c, bu. 50c.

MUSK MILION.

Princes. The Prince is quite distinct from all other varieties and is one of the best for the home garden. In shape it is nearly round, with heavily netted dark green skin; the flesh is of a rich salmon color, and in flavor is sweet and delicious beyond description. Pkt. 5c, oz. 6c, lb. 65c, bu. 50c.

Miller's Cream. The flesh is of a rich salmon color, very sweet and melting in quality, and is so very thick that the melon is almost solid, the seed cavity being remarkably small. Melons are of good size. The rind is very thin and thickly netted. This is one of the finest melons for home use. Rich and fragrant, it is of delicious quality. Pkt. 5c, oz. 6c, lb. 65c, bu. 50c.

Hackett's. Early, yielding. Grown uniformly to a large size; round in shape, flattened at the top, and of flesh rich and velvety in quality; flavor: very productive. Pkt. 3c, oz. 6c, lb. 65c, bu. 50c.

Ranee. This is a very early Melon, and on this account, as well as the uniform size it makes, and its readiness to grow for market. In shape it is round, medium in size, heavily netted, a capital shipper, and very productive. Pkt. 5c, oz. 6c, lb. 65c.

Crown Prince. This is a new oval-shaped musk melon of large size, finely netted, and has beautiful orange pink flesh, and is pronounced by connoisseurs to be a melon par excellence. We offer the Delmonico to our customers with the assurance that all will be a most delicious variety. Pkt. 6c, oz. 6c, lb. 65c, bu. 50c.

Banana. Grows about two feet in length, banana shaped, has a peculiar and very high flavored melon, and is the best known for making excellent wine. Pkt. 5c, oz. 10c, lb. 65c, bu. 50c.
MUSK MELON—Continued.

Livingston's Market. Many years were spent in perfecting this King of Melons, which is specially adapted to market gardeners' use. A most valuable and beautiful characteristic is the large, strong netting. It produces scarcely a small melon, and it matures all melons that set. It is a green fleshed variety with a small seed cavity, and remarkably little waste next the rind. Pkt. 5c, oz. 8c, $1.00.

WATERMELON.

Fordhook Early. We have had early melons of good quality, but this is the first extra early watermelon of fine quality that is also of large size. From seed planted on the twentieth day of May, large ripe melons were picked the last week in July. The average weight of the melons is thirty-five pounds each—a size rarely attained by any other early melon. The rind is tough, making it valuable for shipping. Flesh bright red and very sweet. Pkt. 5c, oz. 8c, 1 lb. 30c, $1.00.

Stokes' Early Extra. The flesh is deep scarlet, remarkably solid, and in delicious sugary flavor is unsurpassed. Their average weight is about fifteen pounds. The seeds are very small, being about half the size of other melon seeds. They are also much more productive than the larger seeds, and for family use are unexcelled. Pkt. 4c, oz. 8c, 1 lb. 20c, 5 lb. 90c.

Hungarian Honey. This is without question the finest melon for family gardens. They are nearly round in shape, dark in color, and weigh about ten pounds. The flesh is of a brilliant red color, and absolutely tasteless, melting and surprisingly sweet and luscious, of very rich honey flavor. Pkt. 4c, oz. 8c, 1 lb. 25c, 5 lb. 75c.

Semiauc. A very early variety, noted for its size and great productiveness. It is of a bright green and gray color, smooth and well proportioned. Their flavor is excellent. A very desirable sort to plant for the table. Pkt. 5c, oz. 8c, 1 lb. 15c, 5 lb. 60c.

Perlis. Flavor always good; sweet and delicious; flesh solid and of rich scarlet color; seeds always white. The form is oblong, the rind is quite thin and dark green in color. Pkt. 5c, oz. 8c, 1 lb. 15c, 5 lb. 40c.

Dark King. In form round; white seeded. This fine melon can scarcely be praised too highly, on account of its solidly, thin rind and rich, luscious, sugary flavor. Pkt. 5c, oz. 8c, 1 lb. 15c, 5 lb. 40c.

Florida Favorite. It is oblong in shape, growing to very large size; thin, dark, with bright green stripes, flesh light crimson, very crisp and deliciously sweet; seeds rather small and of light cream white color. Pkt. 3c, oz. 6c, 1 lb. 15c, 5 lb. 40c.

Kohr's Big. The flesh is bright red, firm, coarse grained, but exceedingly sweet and juicy. The rind is thin, but very hard and firm, forming a distinct shell which protects the melon and also gives it remarkable keeping qualities; considered the best shipper of any. Pkt. 3c, oz. 6c, 1 lb. 15c, 5 lb. 40c.

Gray Monarch. This is one of the largest melons grown. The outside is a mottled gray. The flesh is a bright crimson, sugar, and of deliciously sweet. It is one of the larger varieties, but ripens perfectly with us last year. To all who want a large, deliciously sweet melon, we say give this variety a trial. Pkt. 3c, oz. 6c, 1 lb. 15c, 5 lb. 40c.

Citron. Standard everywhere for making preserves; slightly striped, round in shape. Makes the most beautiful, delicious, clear, transparent preserves. You should have this variety in your garden. It grows wonderfully prolific. Pkt. 3c, oz. 6c, 1 lb. 15c, 5 lb. 30c; 10 lb. 20c.

TOP ONION SETS.

The onions are ready very quickly for table use, and the matured bulbs are very sweet and mild, certainly among the best for home and market purposes. Postpaid, 1 lb. qt. 25c.

SELECTED ONION SEEDS.

Extra Early Red. The earliest, fine grained, choice onion. Both in flavor and quality, large. Large Red Wolfsfield. This is a standard variety and favorite onion. Large size, skin deep purplish red, form round, somewhat flattened, flesh purplish white, moderately firm, sweet, very productive, and the best keeper. Pkt. 4c, oz. 8c, 1 lb. 30c, 5 lb. 1.15.

Danvers Yellow Globe. This is a popular yellow onion, growing to a large size, a good keeper, and of pleasant flavor. My stock is exceedingly fine. Pkt. 4c, oz. 8c, 1 lb. 30c, 5 lb. 1.15.
ONION.—Continued.

Mammoth Silver King. Very large, early, uniform in size, fine shape; white, tender, and of very mild, sweet flavor. Pkt. 6c, oz. 15c, lb $1.60.

Mammoth Pritzlaker. This is undoubtedly the largest, handsomest and most profitable onion grown. The outside skin is of a rich yellow color, while the flesh is white, mild and tender, and may be eaten raw as an apple. It often grows to the weight of three or four pounds, with a diameter of five to seven inches. They bottom well, are quite free from stiff necks, and have produced more bushels of marketable onions to the acre than any other variety yet known. In market it attracts marked attention, and when placed on sale with other popular varieties, has always been selected and purchased, though at a higher price, in preference to any other sort either red, white or yellow. Pkt. 6c, oz. 15c, lb $1.25, $2.50.

PARSNIP.

Fine Sugar. Long, white, smooth, and considered by all to be the best-flavored parsnip grown. A universal market variety. Pkt. 3c, oz. 6c, lb 15c, $1.60.

PARSLEY.

Double Curled. Dwarf and tender, leaves beautifully curled. Pkt. 4c, oz. 8c, $1/2, 25c.

PEAS.

Plants and quarters are sent postpaid at prices given; if sent by express at purchasers expense, deduct 10c per pint; 25c per quart. Larger quantities will be sent by express or freight at purchasers expense.

Extra Early. One of the best smooth varieties of fine flavor. Pkt. 6c, pt. 30c, qt. 35c, lb $1.80, bu $3.25.

McLean’s Little Gem. Matures very early, exceedingly productive. This is one of the very best wrinkled varieties. 1 foot high. Pkt. 6c, pt. 35c, qt. 35c, lb $1.25, bu $2.50.

American Wonder. Very early, wrinkled, and a perfect wonder of productiveness; tender and sweet. 1 foot high. Pkt. 6c, pt. 25c, qt. 40c, lb $1.50, bu $3.00.

ZIPP! Everbearing. Strong and branching; large, sweet and productive; continues in bearing a long time. 2 feet high. Pkt. 6c, pt. 20c, qt. 35c, lb $1.35, bu $2.75.

Royal Dwarf White Marrowfat. The white best marrowfat peel grown. Pkt. 6c, pt. 15c, qt. 30c, lb $0.90, bu $1.80.

Dwarf Sugar. Edible pods, can be used green like a snap bean. Pkt. 6c, pt. 30c, qt. 50c.

PEPPER.

Golden Dawn. Very productive, golden-yellow color, excellent quality, and mild flavor. This is a much grown, valuable sort. Pkt. 4c, oz. 75c.

Ruby King. Grows to a large size, bright red color, and remarkably mild and pleasant to the taste. This is a beautiful variety. Pkt. 4c, oz. 35c.

Long Red Cayenne. Long slim pod, red, very strong and pungent. Pkt. 4c, oz. 20c.

PUMPKIN.

Tennessee Sweet Potato. Unsurpassed for pies; hardy and productive. Pkt. 4c; oz. 7c, $0.25.

Connecticut Field. Valuable for stock; very productive. Pkt. 4c, oz. 6c, $1.50, lb 20c.

ROSY GEM. Absolutely the earliest radish in cultivation. Globe-shaped, scarlet, shading to white; tender, crisp and delicious. Pkt. 3c, oz. 6c; $1.80, lb 20c.

CHAMPION. This is of perfect shape, bright color, very crisp and tender. Its fine form, splendid eating qualities, and extreme earliness, makes it one of the finest radishes in cultivation. Pkt. 4c, oz. 7c, $1.50, lb 20c.

Charter. A fine long variety; scarlet, shading to white. Crisp, tender and of mild flavor. It retains its good qualities long. Pkt. 3c, oz. 6c, $1.50, $2.50.

White Strasbourg. Medium long, pure white, firm brittle and tender, retaining its crispness even when the roots are old and large. Pkt. 3c; oz. 6c; $1.50, lb 30c.

Long Scarlet. Very brittle and crisp, and of quick growth. Pkt. 3c, oz. 6c; $1.50, lb 30c.

California Mammoth White Winter. Large, white, firm, fine flavor. Pkt. 6c, oz. 7c, $2.50, lb 50c.

Chinese Rose Winter. Medium size, excellent quality; rose color. Pkt. 4c, oz. 7c, $2.50, lb 50c.

SALSIFY.

This is the popular very stable Oyster Plant. Mammoth Sandwich Islands. Grows uniformly to a large extra size; of superior quality and very fine flavor. The very best. Pkt. 4c; oz. 10c; lb 50c, $1.00.

SPINACH.

Spinach is unexcelled for early greens.

Long Standing. A new variety of great promise; best for greens. Pkt. 5c; oz. 8c, $1.25, $2.50.

Savoy Leaf. Leaves large, wrinkled, thick and round; very fine. Pkt. 3c; oz. 6c, $1.00.

SQUASH.

Early White Bush. A highly esteemed early variety, grown almost exclusively for first crop. From the hard texture of the rind it is well suited for shipping; very productive, and valuable alike for market and family purposes. Pkt. 3c, oz. 6c, lb 10c.

Summer Crookneck. Of dwarf, bushy habit and extremely productive. Flesh is greenish yellow, dry and of the most agreeable flavor, so much so that it is the most highly esteemed of all the summer squashes. Pkt. 3c, oz. 6c, lb 10c, $0.50.

Perfect Gem. This variety is equal desirable either as a summer or winter squash; wonderfully productive; flesh fine grained and cooks dry and sweet, rich, delicious flavor. Pkt. 3c, oz. 8c, lb 10c.

Eureka. The flesh of this squash is very thick and fine grained, and either steamed or boiled is of extra fine quality, and when baked the Eureka is simply perfection itself. It weighs 30 to 65 lbs., and for a squash of this size is wonderfully prolific, a vigorous vine producing two to three large sized fruits. Pkt. 5c; oz. 12c; lb 15c, $1.20.
Boston Marrow. The skin is a rich, deep orange, making the squash of a very handsome appearance. It grows as large as the Hubbard; the flesh is very thick, fine-grained, and of choice quality. The squashes are in prime condition from September to January. Pkt. 3c, oz. 6c, $1.02, b. 40c.

Essex Hybrid. Very productive and of the finest quality; it is a wonderful keeper, specimens have been kept until June. It is one of the finest grained and sweetest of all squashes. Pkt. 3c, oz. 6c, $1.02, b. 40c.

Hubbard. One of the standard winter squashes, and is one of the best for table use: a good keeper and very productive. Pkt. 4c, oz. 6c, $1.02, b. 60c.

Sibley. This is unexcelled in quality, being superior to any other variety in richness, sweetness, and possesses a delicate flavor. It is a good keeper. Pkt. 4c, oz. 6c, $1.02, b. 60c.

Royal Red. This is a first-class main crop variety for the shipper, marketeer and private gardener. The color is a beautiful red, without the least tinge of purple. As to size and quality it is all that can be asked. Pkt. 3c, oz. 6c, $1.02, b. 50c.

The Stone. A fine new variety; large smooth and very solid; flesh firm, free from core; of rich scarlet color; excellent for market and home purposes. It is an extra fine variety. Pkt. 4c, oz. 6c, $1.02, b. 30c.

Dwarf Champion. This is a dwarf, distinct variety with stiff stems that holds the foliage and fruit up from the ground. It is the earliest of all, ripens having been picked the first of July. It bears fine fruits of medium size, very smooth and symmetrical. The best variety for market use. Pkt. 3c, oz. 6c, $1.02, b. 30c.

Livingston's Beauty. Few tomatoes can equal this desirable variety. It is very handsome, medium size and perfectly smooth. Good for all purposes. Pkt. 3c, oz. 6c, $1.02, b. 40c.

Perfection. One of the earliest, produces solid fruits of medium size, uniform and smooth. Much used for canning; of handsome blood-red color. Pkt. 3c, oz. 6c, $1.02, b. 40c.

Peach. Striking and peculiar; resembles some peaches; the color is deep rose blended with orange amber. Very productive and of delicate flavor. Pkt. 3c, oz. 6c, $1.02, b. 50c.

Golden Queen. This is a beautiful yellow variety of superior quality. It is solid, smooth, large in size, ripens early, and is a very handsome variety. Pkt. 3c, oz. 6c, $1.02, b. 50c.

TOBACCO.

Connecticut Seed-Leaf. A hardy variety, does well in the North. Pkt. 4c, oz. 20c.

TURNIP AND RUTA BAGA.

Extra Early Purple Top Munich. One of the earliest and the finest for table use. Of a very fine quality; quick growing. Pkt. 3c, oz. 6c, $1.02, b. 30c.

Large White Globe. A standard variety for family use, market and stock. Great yielder, and of excellent quality. Pkt. 3c, oz. 6c, $1.02, b. 40c.

Mammoth Purple Top. An excellent large variety; very productive, yielding enormous crops. One of the best for stock feeding. Pkt. 3c, oz. 6c, $1.02, b. 30c.

Improved Purple Top Yellow Ruta Baga. A fine large variety; an enormous yielder. It is the best for all purposes. Pkt. 3c, oz. 6c, $1.02, b. 30c.

White Sweet Ruta Baga. A standard white variety, admirable for table use and desirable for feeding stock. An excellent keeper. Pkt. 3c, oz. 6c, $1.02, b. 40c.

The Faxon Squash

Faxon. The flesh of this new variety is deep orange yellow, cavity very small and seeds few; the special peculiarity, however, is that, while uncooked it appears to have a shell like any squash when cooked there is practically none. It is the best squash we ever tasted—sweet or dry—and for squash pies it must be tried to be appreciated. Very early, enormously productive, of medium size and the best possible quality. Pkt. 4c, oz. 6c, $1.02, b. 30c.

Marblehead. This is an excellent variety and a fine keeper. Very fine grained, possessing a sweet and delicious flavor. Pkt. 4c, oz. 6c, $1.02, b. 60c.

Mammoth Chile. This is the largest of all squashes, has very thick flesh and is unsurpassed for stock feeding. Pkt. 4c, oz. 8c, $1.02, b. 30c.

TOMATO.

Anderso's Best. Among 32 varieties of tomatoes growing side by side, this new variety was decided to be the best. It is large and uniform in size, perfectly smooth, and of a deep red color. Ripens medium early and is a good keeper. In quality it is unsurpassed and is sure to be appreciated. It is a variety that will please. Pkt. 3c, oz. 12c, 4c, b. 50c.

TOMATO—DWARF CHAMPION.
SEED POTATOES.

SENeca Beauty.

This valuable and distinct medium early variety is a special favorite with all who have grown it. Its appearance will sell it in any market. The tubers are large and very smooth, with eyes close to the surface, of a beautiful pink color. For five years it has never shown the least sign of blight, and last season produced twice as many marketable potatoes as the best varieties planted alongside. A good keeper and its quality is unsurpassed. It is surprisingly productive, yielding a large number of marketable potatoes, with scarcely any small ones. Peak 25c., bus. 60c., bbl. $1.70.

EARLY OHIO.

In comparison with many so called early varieties the past season, this excellent potato has outstripped them all in earliness and productiveness. The tubers are slightly oval and grow to a good size. While they do not produce an excessive number of potatoes to the hill they are of such uniformly large size that it is a pleasure to dig them, and will yield any other early variety that have come to our notice. In quality it is unsurpassed, being the favorite table variety, with nearly all who have tried it. It is a wonderful keeper, having been preserved in prime condition until the new crop was ready for the table. Peak 25c., bu. 65c., bbl. $1.70.

UNITY.

This is a very prolific early variety, producing large sized tubers with smooth white skin, faintly tinged with delicate pink. It ripens immediately after the Early Ohio, is a sure and productive crop, and will withstand drought better than most other varieties. It is good for the table in any stage of its growth. You will not miss it by trying this valuable variety. Peak 25c., bu. 65c., bbl. $1.70.

EARLY FILL-BASKET.

In this variety we have an excellent early potato, that is particularly valuable to the farmer and market gardener. It has produced tubers fit for the table in 40 to 50 days, which demonstrates that it is one of the earliest sorts. The flesh is of peerless purity, and when boiled it is almost as white as milk. It is excellent as a keeper, splendid as a lathering variety. Peak 25c., bu. 65c., bbl. $1.70.

THE FREEMAN.

The great merits of this variety are its extreme earliness and long keeping qualities. It is also a first-class grower, frequently producing from six to nine pounds from a single hill. The tubers are oval in shape, russet in color, the flesh very white, both raw and when cooked, fine grained and of the best flavor. From the time they are as large as hen's eggs, they burst open when boiled with their jackets on and are snow-white and floury. Peak 25c., bu. 65c., bbl. $1.70.

OREGON PEARL.

This is a potato peculiarly fine and worthy of a good notice in our seed catalogue, and is a sort that will become a standard on account of its merits and excellent qualities. Its two strong points are its good keeping and eating qualities. In these two points it is not surpassed by many. It is a potato that is smooth, to be sublimed, and is a wonderful yielder. The tubers are of uniform size and grow closely together in the hill and are easy to harvest. The skin has a living color, which is one of those potatoes that you will never get tired of. Peak 25c., bu. 65c., bbl. $1.70.

QUICK RETURN.

This variety has shown a marked superiority in all the essential points that are required to make up a first-class early variety, such as vigor, healthiness of vine, beauty of foliage, productiveness and fine table quality. The skin is of a white color, slightly tinged at times with pink. The flesh, however, is pure white and of a delicious, rich flavor. It ripens with the Freeman, a little later than the Early Ohio. Peak 25c., bu. 65c., bbl. $1.70.

HUNDREDFOLD.

This is an enormous grower, a uniform grower, healthy, vigorous, and is considered by all who have tried it to be a leading medium late variety. Its handsome form, white skin and large size recommend it at once and bring for it in the market the best prices. Its eating qualities are unsurpassed. Peak 25c., bu. 65c., bbl. $1.70.

CLARK'S NO. 1.

This is a very productive early variety, having yielded 140 bushels to the acre without extra cultivation. It cooks very evenly, of excellent flavor.

THE MINISTER.

Dry, mealy, fine grained and delicious even when small. Strong grower, and seems rot proof.

WHITE STAR.

Medium early and large cropper; cooking qualities the best; a good keeper.

RURAL NEW YORKER.

Distinct and handsome, large size and smooth skin; the eyes are few and shallow, it is of extreme whiteness, both of skin and flesh, and unexcelled table qualities.

POTATO EYES BY MAIL.

By cutting out eyes separately, and sending with a four-square piece of potato attached to each eye, we can save postage, thus enabling customers to try a number of varieties at a small expense. When received, these eyes should be kept moist or plump out. It is best to mail eyes when wanted for planting in spring. We will send any of the above named varieties by mail at the following prices: 10 eyes 25c., 25 eyes 50c., 75 eyes $1.00.

FIELD CORN.

ANDERSON'S SELECTED GOLD COn YELLOW DENT CORN.

The selection of good corn, and obtaining reliable seed of the same is of vital importance to the farmer, on it depends in a great measure the result of the coming crop. Believing I have a corn that is superior, I offer to try my patrons my Gold Coin Yellow Dent Field Corn. It is the result of years of careful selection with the view of producing an improved variety, combining earliness and productiveness. In comparison with other standard varieties I have found one variety that has excelled it given the same care and culture. I am inclined to think it will outstrip most other varieties in productiveness, it is an early sort, maturing in about 90 days. The ears are large, it has a small cob and deep kernels. It is a variety that will demonstrate by results all the valuable features demanded in a good corn. Price, including sacks, per bushel, 60c.; 2 bushels, 54c.; 10 bushels, $2.25.

SEEDSMAN AND FLORIST,
LEIGH, COLFAX CO., NEBRASKA.

**SWEET PEAS**

**THE FASHIONABLE FLOWER.**

White Cupid. This is the greatest novelty of the season, grows only 3 inches high; the foliage is very dark green; blossoms pure waxy-white, of unequalled substance, and full size. The plant does not grow more than 12 to 16 inches in diameter. The stems are about 4 inches long, bearing two or three blossoms, all very near the end of the stem. It is a wonderfully free bloomer, and begins to flower as early as May and continues until October. It is admirably adapted for pot culture. 5c.; 2 pkts. 8c.

Pink Cupid. This is a new variety of the dwarf sweet peas, offered for the first time this season. In habit of growth it is identical with the white Cupid, and a very prolific bloomer. The standard of the flower is wide, not infrequently measuring an inch and a half, but not over an inch high, being developed latterly. It curves over a trifle from the top, partly concealing which gives the standard a distinct shell-shaped appearance. The standard is a bright rose-pink, while the wings are pure white or light pink. The wings are large and finely formed. 1c.

Daybreak. In color it has a white ground and on the reverse of the standard is a crimson-scarlet cloud, which shows through in the fine veins and network, giving the front a fine watered effect. Wings flaked with crimson. 4c.

1898.

**CREOLE.** The standard is light pinkish lavender, while the wings are pure lavender. The flowers are of a most refined, delicate beauty, yet produced profusely. 4c.

Coquette. Beautiful hooded flowers of fine substance and large size. The standard turns toward the front just enough to be graceful, without rolling over too much; the whole effect is light. The wings are a clear primrose-yellow, while the standard is shaded pale lavender on a primrose ground, the shading becoming deeper in the middle, where a crease is formed by the curving sides of the large standard. The whole effect of the flower is that of a pale yellow with a purplish-pink cast. 5c.

For other varieties of Sweet Peas see Flower Seed Department.

**MIXED SWEET PEAS.**

This is a mixture that is unsurpassed by any offered at much higher prices. Price, 6c. per oz.; quarter pound, 12c.; 35c. per pound.
My Flower Seeds are sold under no guarantee whatever, for I do not give the care required to germinate many of these seeds. But I have the honest assurance that they are fresh and pure, and equal to any obtainable in every respect, and if they have produced but a few seeds, I will increase the amount by sending them in large quantities.

How to Send Money.—When Money Orders and Postage Stamps (several No. 10 Envelopes are obtainable) do not send stamps, as I cannot use them except for paying postage, and if ever one persists in sending stamps I am at a loss to what to do with them. Drafts on Chicago and New York are acceptable; but private checks will be returned.

CLUB TERMS.

Although seldom a close margin, in order to induce my customers to make their orders as large as possible or get their neighbors to club with them, I follow the following extra large discount.

25c Plants at single rate, and Flower and Vegetable Seeds in packets may be ordered on these terms:—

For $1.00 select to the amount of $1.10.
For $2.00 select to the amount of $2.25.
For $3.00 select to the amount of $3.40.
For $4.00 select to the amount of $4.60.
For $5.00 select to the amount of $5.75.

25c Collections of seeds or plants, and seeds by the ounce, pound, pint or quart must not be counted to secure club rates. I pay postage unless otherwise specified, and guarantee safe arrival.

WONDER COLLECTIONS.

These collections cannot be counted to secure club rates but are strictly act. Selection of varieties is left entirely to you.

SEED POTATOES.

SENECA BEAUTY.

This valuable and distinct medium early variety is a special favorite with all who have grown it. The tubers will grow in any market. The tubers are large and very smooth, with eyes close to the surface; of a beautiful pink color. For five years it has never shown the least sign of blight, and last season produced twice as many marketable potatoes as the best varieties planted alongside. A good keeper and its quality is unsurpassed. It is surprising in productivity, yielding a large number of marketable potatoes, with no potatoes of any small ones. Peck 2.5c., bush 3.0c., bbl. $1.50.

EARLY OHIO.

In competition with many so called early varieties the past season, this excellent potato had a decided advantage in keeping and productivity. The tubers are slightly oblong and grow to a good size. While they do not produce tubers of the size of some, the potato in all other respects is perfect. The hill there are of such uniformly large size that it is a pleasure to dig them, and will outyield any other early variety that have come to our notice. In quality it is unsurpassed, being the finest table variety with a carly all who have tried it. It is a wonderful keeper, having been preserved in prime condition until the new crop was ready for the table. Peck 2.5c., bush 3.5c., bbl. $1.50.

EARLY VERMONT.

This variety has shown a marked superiority in all respects and is now known as and named Vermont cabinet. It will make up a first-class early variety, such as white, healthiness of the flesh, keeping qualities, and fine table quality. The skin is a clean, deep rose. The flesh, however, is pure snowy white and of a delicious, rich flavor. It ripens early and is a very comendable variety. Peck 2.5c., bush 3.5c., bbl. $1.50.

POTATO EYES BY MAIL.

By cutting out eyes separately, and sending with a fair-sized piece of potato attached to each one, we can save postage, thus enabling customers to try a number of varieties at a small cost, and by giving all eyes should be kept moist or planted out. It is best to plant these eyes for spring planting.

We will send any of the above named varieties by mail at the following prices: 10 eyes 25c.; 25c.; 50c.; 100c.

WHOLE POTATOES BY THE POUND.

We will send whole potatoes by mail at the following prices: 1 lb., any sort, 25c.; 2 lbs., 30c.; 3 lbs., 35c., not less than 1 lb. of any sort, 30c.

FIELD CORN.

ANDERSON’S SELECTED GOLD COIN YELLOW DENT CORN.

The selection of good corn, and obtaining reliable varieties is of the utmost importance to the farmer, it depends in great measure on the results of the coming crop. Believing that I have a corn that will suit you offer to patrons my Gold Coin Yellow Dent Field Corn. I have given years of careful selection with the view of producing an improved variety, combining earliness and productive ness. In competition with other standard varieties I have not found one variety that has proved so popular with the public. You will find the character of the corn is excellent, keeping well, splendid as a baking variety. Peck 2.5c.
CHOICE PLANTS.

It is with pleasure I present this list of Choice Plants to my customers, knowing I place it within the means of everyone to get a fine assortment. Although sold at comparatively low prices my plants are in no way inferior to those of other florists, and in one respect are superior to many, the being grown in good greenhouses so they are not unnecessarily forced, and thus stronger than those propagated in the excessive heat kept in many houses. All plants are sent by mail, postpaid, and I guarantee them to reach their destination safely, and in good condition. Please remember I do not guarantee the plants to live, if they are received in good condition my responsibility ceases, and all claims must be made within five days of receipt of plants.

Plant orders under 25 cents will not be filled. Read the terms on second page of cover before making out your order.

ABUTILON.

This has beautiful maple-like foliage and bell-shaped flowers. Fine summer and winter bloomers.

Snowstorm. This is the finest of the white varieties, and a profuse bloomer. 7c.

Thompson's Pien. A double variety having flowers of deep orange, shaded with crimson; the foliage is yellow-gold, and green. 7c.

Erecta. Produces its flowers upright. Color, a pleasing shade of rose pink. 5c.

Golden Fleece. Pure yellow flowers, produced in great abundance. One of the best bloomers. 7c.

Souvenir de Bonn. Leaves bright green, distinctly edged with a broad pure white band. Flowers are golden yellow, veined with scarlet. 5c.

Foxley. A vigorous grower, with deep crimson flowers. 7c.

ACHANIA MALAVISCUS.

A very desirable flowering shrub, sometimes called Crystal Maple. Heart-shaped leaves and intense scarlet flowers. 10c.

ACHEMINES.

These are charming summer blooming bulbs, and bloom profusely. Fine for cemetery planting.

ACHRYANTHUS.

Fine foliage plants for bedding in masses.

Fomosa. Yellow and green foliage, pink 6c.

Lenendii. Leaves very dark red. One of the best. 5c.

AGAVE VARIEGATA.

This is the finest variety of the popular Century Plant. Center of leaves green, with broad white stripes on the margin. This makes fine specimens. 25c.

AGERATUM.

Profuse summer flowering plants; fine for borders, and the flowers are desirable for cutting. It deserves extensive cultivation.

Cope's Gem. Deep porcelain blue; dwarf. 50c.

AGATHEA CELESTIS.

Blue Daisy. Flowers blue, with a yellow disk. Blooms well during winter and summer, and it makes a novel appearance in a collection with its beautiful flowers. 6c.

ALOE.

This is a very ornamental plant with thick, fleshy recurved leaves, the juice of which have healing properties when applied to cuts, burns or bruises. Coral-red flowers. 25c.

ALYSSUM.

Little Giant. Elegant white flowers, borne erect like candelabra. Fine for pots or bedding, the plants are covered with bloom. 6c.

ALTHEA.

A very showy hardy shrub, with brilliant flowers, double and full. It blooms in August.

Double White. Very beautiful. 15c.

Double Striped. A unique variety. 15c.

ABUTILON—SOUVENIR DE BONN.

AMARYLLIS.

Splendid flowering bulbs for house or garden culture. Equester. One of the best for winter blooming. It produces large flowers of exquisite beauty, being a rich sparkling orange-red, shading to a beautiful green, and terminating with a white star in the center. 15c.

Formosissima. Flowers very large, petals broad and very firm, intense velvety crimson. 20c.

Johnsonii. A strong growing sort with flower stalks a foot or more high, bearing 6 to 8 brilliant red flowers five inches in diameter, with a distinct white stripe in each petal. 30c.

ANEMONE.

Whirlwind. This is particularly desirable for cemetery planting, being perfectly hardy, and is a strong and free bloomer, producing its large semi-double, pure white flowers in great abundance. This beautiful plant deserves a place in every garden. 6c.

ANTHERICUM VARIEGATUM.

This elegant house plant has dark green leaves, bordered with broad white stripes, and bears spikes of white, star-shaped flowers. 10c.

AMOMUM.

This belongs to the Ginger family, and produces the Cardamon Seeds of commerce. In size it resembles a miniature pineapple, and makes a very pretty little pot plant. The foliage is quite fragrant.

AMELOPSIS.

Veitchi. A popular hardy climber; grows rapidly, forming a dense mass of deep green foliage. 1c.

APIOS TUBEROSA.

A hardy tuberous-rooted climber, with clusters of deep carmine-red flowers, and a strong violet fragrance. They bloom profusely. 5c.

ASPARAGUS.

Pomponus. An elegant variety, forming an excellent pot plant. Foliage bright green, very graceful, and so delicate it has all the appearance of finely woven silk lace. The stems are slender, delicate, and gracefully arching, and are invaluable for cutting. 35c.

Staple. This is a charming drooping var- iety, admirably adapted for growing in hanging baskets. The green feathery foliage is fine for bouquets, wreaths or sprays, remaining perfect for weeks after cutting. Flowers white, followed by red berries. 75c.

ASPIDistra.

A handsome foliaging plant, with graceful oblong-lanceolate leaves on long slender stems. One of our best pot plants.

Lurida. Broad deep green leaves. 20c.

Variegata. Stripped with white. 55c.

BEGONIA.

These thrive best in a shady situation. Give them a soil composed of leaf mold and sand.

Alba. Deep green leaves and pure white flowers. 6c.

Argentea Guttata. Obovate bronze leaves, with silvery markings; large bunches of white flowers. 8c.

Carnosa Picta. Smooth green leaves, dotted with white; lemon white flowers. 6c.

Chathamiana. A charming variety with currant-red flowers; easily grown. 5c.

Crimson. Bright green foliage and waxy white flowers; always in bloom. 6c.

Cuprea. This has beautiful dark green velvety leaves, and rose white flowers, and strong healthy grower. 15c.

Cuprea Nean. Double. Rose red. Flowers white; blossoms freely winter and summer. 6c.

Gloria de Juo. The leaves are of a soft olive green, dotted silver; flowers red, with a distinct shiny petal; large flowers of soft pink. 15c.

M. Catala or Giant Ruby. This is a robust grower, having a tufted height of five feet, and produces leaves four inches wide and five or six inches long, of a rich bronze green on top and deep crimson underneath. It blooms in enormous panicles, sometimes having upwards of fifty large scarlet flowers to the spike. This is a gorgeous variety, and should be found in every collection. 15c.
REX BEGONIA—QUEEN OF HANOVER.

BEGONIA—CONTINUED.

M. de Lesspe. Large, leaves, of a rich silly texture, beautifully spotted with silver. 1.2c.
Margaretia. Bronze green leaves with purplish cast; trusses of cream and rosy flowers. 9c.
Metallica. Dark veined metallic foliage; beautiful mossy pink buds and flowers. 9c.
Multiflora. A very free flowering variety, with deep coral-red flowers. 6c.
McBeth. Foliage fern-like, panicles of pure white flowers, and are produced in the greatest profusion. 8c.
Natida Rosea. Fresh green foliage and beautiful rose-colored flowers. 9c.
Paul Brunt. Makes fine specimen plants; has large, heavy leaves of deep olive green, and produces its flowers of a delicate rose color, changing to white. 10c.
Pictaviense. A robust grower, with large velvety leaves, and delicate pink flowers. 15c.
Rubra. Immense trusses of waxy scarlet flowers; very popular. 12c.
Saunders. Rich coral-red flowers; a free bloomer and easily grown. 6c.
Sanguinea. Leaves rich, olive, under side dark crimson; flowers white. 8c.
Sepalatum. Leaves very deep bronze brown; a very showy variety. 9c.
Spectabilis. Large, grave-like leaves, green, with chocolate background, spotted with silver; rich pink flowers. 7c.
Steller. Dark green foliage of rich metallic bronze green, deepening into bright red; flowers white. 18c.
Velutinensis. Flowers a rich shade of pink, stems red; a produse bloomer. 6c.
Zellneri. Large, glossy green, with a silvery tinge along the midrib; white flowers. 8c.

REX BEGONIA.

These are a brilliant class of foliage plants. Grow in a shady situation and avoid watering the foliage.

Bertha McGregor. Leaf long pointed and with six deep notches. The center of leaf is deep bronze green, the body of leaf solid silver, outlined with bronze. Extremely fine. 9c.
Lesoudsi. This is the largest leaved of the Rex family, and is a wonderful combination of silver, bronze and green. 12c.
Louise Glosson. Highly colored zone of holotrope and bright red; rich metallic luster. 10c.
Perle Humboldt. Sharply pointed leaf, with a rich combination of silver, bronze and green over the whole surface, and edged with a maroon since. 10c.
Queen of Hanover. Leaf of soft velvety texture, covered with red pile, center and edge of soft green velvet; rich silvery zone. 10c.
Queen of France. Flower leaf of crepe-like texture, reddish veins, embroidered margin and fluted rosy edge. 18c.
Unnamed Varieties. These are some of the finest grown. 8c. 3 for 20c.

TUBEROUS BEGONIA.

These make fine specimen plants when grown in rich loam, admirably adapted for bedding in moist, shady situations. Their flowers are wonders of size and brilliancy.

Single Varieties Mixed. Fine bulbs. 7c.

BRUGMANIA.

This grows quite large, and has beautiful bell-shaped flowers nearly a foot long, which are very fragrant. It is a glorious sight when in full bloom. 12c.

CURIUS CACTI.

These are not only great oddities, but many forms produce wonderfully beautiful flowers.

The Queen. The flowers are most exquisitely, forming a large rosette of delicate white petals, shaded outside in goldentones. It is very fragrant. Give rich soil, plenty of water while growing, a little shade in summer, and keep rather dry during winter. 30c.
The King Cactus. A betting companion to the above. The enormous flowers are of a bright deep scarlet, so rich and beautiful that it is impossible to properly describe it. 30c.
Queen of the Night. Most glorious of all the cacti; opens after sunset; flowers 12 to 14 inches, white and yellow, exceedingly fragrant. Grandest flower in existence. A plant that will please you. 20c.
Lobster Cactus. This is a fine drooping species. A well grown specimen will produce numerous bright crimson flowers, hanging pendent from the branches. 15c.
Echinopsis Muller. This is easily grown and blooming, producing double flowers of a satiny rose color. Fragrant and lasting. 20c.

CALYCAN'THUS.

A fine hardy shrub of very culture; flowers purple, very double and deliciously fragrant; remains in bloom for a long time. 15c.

CARNATION.

These are fine winter bloomers, and is one of the sweetest flowers grown.

Wm. Scobell. A rich chocolate shade of pink. Strong and vigorous. 7c.

CHRYSANTHEMUM—WARRIOR.

Starlight. A delicate cream, very full and double; a free and vigorous grower. 6c.
Parfum. Flowers large, long-stemmed and freely produced. Color pure white. 6c.
Poria. The most intense bright scarlet, vigorous habit, and fine flowers. 6c.
Grace Wilder. A rich delicate pink; very free flowering. 7c.
Lizzie McGowan. A fine white variety. 7c.
Sweet Brier. Beautiful, clear pink; a vigorous and fine grower. 8c.
Helen Keller. Pearlly white, streaked rosy carmine; a very fine grower. 7c.

CISTRUM PARVUL.

This is the popular Night-Blooming Jasmine, a native of Chili. An excellent garden plant, growing rapidly, and producing its fragrant yellow flowers at every joint, which is sweet only at night. It is also well adapted for house and window culture. 8c.

CHRYSANTHEMUMS.

Crinum Beauty. Deep crimson; very large. 6c.
Frank Wilcox. A rich and charming color of old gold. Large flower; robust grower. 6c.
Harry Balsey. Soft mermet pink; one of the finest for exhibition. 6c.
Harry E. Widener. A rich golden-yellow, without shading; petals crisp and still. 6c.
Hastings. A rich, slightly incurving; a very fine variety. 7c.
Queen of the Night. A deep golden-yellow; very massive in build. 8c.
Ivy. One of the finest of the white varieties. 9c.
Jessica. A fine early white variety. 6c.
John Longfellow. Brilliant color; pink. 6c.
Louis Bocher. An exquisite shade of silvery pink; the petals have the peculiar downy appearance of an ostrich feather. 7c.
Mrs. Alpheus Hardy. This is the beautiful white "ostrich plume" chrysanthemum; it has a very rich appearance. 12c.
Major Bonnefons. Clear yellow, incurved; perfect form and finish. 6c.
Mrs. A. G. Whidden. A fine early blooming variety, of a rich clear yellow. 6c.
Mrs. Robert Craig. White, large and fine. 8c.
Mrs. Reinecke. Pink, shading to creamy white in center; incurved. 6c.
Mutual Friend. White; one of the best. 6c.
Pilcher and Manda. Center of flower clear canary yellow, shading to white in the outer petals. This makes a very pleasing contrast. 6c.
Snowball. One of the finest white varieties, has a rich and chaste appearance. 6c.
Sunflower. Clear yellow, very large. 6c.
The Queen. White, of fine size and great substance, shaded, incurved and full. 6c.
Uncle Sam. Center deep crimson, shading to silvery pink. A unique, pleasing variety. 8c.
Violet Rose. Rose, marked with violet. 7c.
Warrior. Inside of petals deep crimson, outside brilliant bronze. Nothing can compare with this in richness of color and perfect form. 9c.
Wm. Falciner. A magnificent ostrich plume variety. Color a delicate flesh pink, changing to true white. 8c.

BEGONIA—THURSTON.

These are fine, and one of the sweetest flowers grown.

Single Varieties Mixed. Fine bulbs. 7c.

RED BEGONIA—THURSTON.

These are fine, and one of the sweetest flowers grown.

Single Varieties Mixed. Fine bulbs. 7c.

CHRYSANTHEMUM—WARRIOR.
CALLAS.

Little Gem Calla. This dwarf variety rarely exceeds twelve inches in height and blooms abundantly. The flowers are not more than half the size of the common variety, and therefore can be used with telling effect in baskets. It makes a superior house plant, and should be found in every collection. 12c.

While Calla or Lily of the Nile. An old favorite plant which should be found in every collection; it grows freely and requires abundance of water, and produces large pure white flowers during the winter and spring. 6c. Large blooms.

Sorrel Leaf Calla. This plant is always ornamental, even when not in flower; the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the old favorite calla, excepting of smaller habit. In addition to its usefulness as a pot plant it makes a fine thing for planting out in the garden during summer, being very effective. 6c.

CHINESE MATRIMONY VINE.

A vigorous climber, bright purple flowers, produced in profusion, which are succeeded by brilliant scarlet berries. It is perfectly hardy and will succeed in any situation. 2c.

COLEUS.

Nothing can excel the Coleus where ornamental foliage is wanted for bedding or pot culture, they present so many variegations in pleasing and fantastic shades. 8c.

CRASSULA CORDATA.

Succulent plant of bright scarlet red, grows very free and leaves a strong growth, with a profusion of pinkish white flowers throughout the season. Fine for mixed borders. 4c.

COOPERIA PEDUNCULATA.

This is the beautiful Evening Star Flower; with elegant white star-shaped flowers, of a delicious primrose fragrance. 3c.

CYCLAMEN.

These are among the most beautiful and interesting winter and spring flowering bulbs for the window and greenhouse. Not only are the flowers of striking beauty, but the foliage is also highly ornamental, consequently they are very decorative, even when not in bloom. 10c.

THE TRICOLOR CUPHEA.

Cuphea Lavae. Tubular flowers with bright scarlet tints; the flowers are tipped with bright purple, and have pure white stamens. 8c.

CYPRIS ALTERNIFOLIA.

An ornamental grass, throwing up stems about two feet high, surmounted at the top by a whorl of leaves, diverging horizontally, giving it a very curious appearance; splendid for the center of casso or water plant. 2c.

DAHLIA.

These are favorite garden plants. Mixed varieties, 10c.

DEUTZIA.

Cranesbill. Flowers double—white tinged with pink, in racemes four or five inches long; one of the finest harder shrubs. 12c.

FABIANA IMBRICATA.

A variegated dwarf variety of the Foxglove. The leaves are deep green, marbled in the center with dark green and white. 12c.

DOUBLE WHITE FEVERFALTER.

This is fine for cut flowers, furnishing an abundance of charming little flowers. 6c.

Fig Trees.

The Fig can easily be grown and fruited in a large pot or tub, and will be a great curiosity to many. 12c.

FERNS.

Adiantum Pubescens. This is a beautiful variety of the popular Maidenhair Fern; very rich and gracing in baskets, chozy stems and airy fronds. 12c.

FERN—Nephrolepsis Exaltata.

Nephrolepsis Exaltata. The beautiful Sword Fern. Well grown specimens attain a length of live or more feet. 5c.

Pteris Tremula. Poplarly called The Shaking Fern. Produces large fronds, and makes magnificent specimens. 1c.

Pteris Cretica. Very useful for jardinerie and table decoration generally; grand. 15c.

FUCHSIA.

BLACK PRINCE. Scapals; corolla redish—rose; easily grown. 6c.

Lavinia. Tube and Scaps white; corolla brilliant crimson, tinged magenta. 7c.

Lustre. Waxy white tube and scapals; elegantly reflexed; corolla dark red. 7c.

Mus. Marshall. A large and beautiful variety. Scaps white; corolla deep crimson. The tube is very long and slender. 6c.

M. J. Proctor. A distinct new variety, with rich crimson scaps, elegantly reflexed; corolla a beautiful shade of lilac. 12c.

M. Thubaut. The flowers are unusually large, scaps dark red; corolla vermilion, tinged crimson. 15c.

Speciosa. Pale red tube and scapals; dark red corolla. Best winter bloomer. 9c.

Training Queen. A new variety, neat, trailing habit. The flowers are borne in large, drooping clusters and are very large, long and graceful; iris, blue, tube and scaps being bright rose scarlet, the corolla is a deep rich violet. 5c.

This charming plant is one of the freest bloomers known. 8c.

DOUBLE VARIETIES.

Admiral Court. Tube bright red; corolla deep violet. Enormous double scaps. 6c.

Bridal Veil. A fine new double white variety.
DOUBLE GERANIUMS—CONTINUED.

M. Remy Martin. Bright rose; very large, 7c.
Marvel. Rich maroon, shaded with orange; pet- ties, 3c.
Montesque. A delightful pale mauve, 7c.
Pfitzer. Rose-pink, large, 5c.
Peach Blossom. Center beautiful carmine, shading to delicate blush white, 7c.
Rosa.Floriferous. A very striking scarlet, base of petals pure white; very fine, 7c.
Rosbud. The florets are so fine and double that the prison of the flowers is a cluster of rose- buds. It is of a rich scarlet color, 10c.
Very showy and most commendable double white geranium ever introduced. It is unsurpassed for cut flowers; snow-white flowers, 10c.

SINGLE VARIETIES.

Souvenir de Miranda. This grand variety has beautiful flowers, petals cream white with a distinct rose-y pink border; lower petals are pure white. This grand variety should adorn every window and garden.

Brilliance. In this variety we have a geranium of the brightest dazzling scarlet, 6c.
Carmen Sylva. Flowers pure white; a grand bloomer; fine habit, 6c.
Gloria Poiwina. Red, shaded orange, 7c.
Jeanne de Arc. Ora-hal, fragrant, 7c.
Mary Hallock Foot. Immense trusses of bright pink flowers, vigorous and healthy; pure white, 7c.
Queen Olegs. Deep pink, white at base, 6c.
Romeo. Pink, fine bedder, 7c.

GERANIUMS.

Cloth of Gold. Center of leaf dark green, marbled with a broad band of yellow. 7c.
Leaves large and deep green, distinctly marked with a large, light golden blotch in the center, forming a well marked variegation. Flowers dazzling scarlet. 5c.
Happy Thought. Center of leaf creamy yellow, with center band of dark green; 6c.
Madam Sailer. Leaves deep olive green, with reddish veins of pure white. 7c.
Magician. Foliage dark green, with greenish yellow disc, and delicate chocolate edge.大楼 are scarlet-colored flowers. A very bloomer, 8c.
Mrs. Follick. A magnificent variety, the green leaf disc is overlaid by a beautiful bronze-red zone, colored with bright crimson and shaded with dark red; it flows upon a flower stem about four feet high, on which it bears from twenty to thirty crowded buds, a fragrant, drooping, bell-shaped flowers; admirably adapted for growing in clumps, in borders, or on lawns. Keep bulbs from frost, 10c.

Hyacinthus Candicans. This variety has a majestic appearance; it resembles the Tucca, though not quite so large and full. blooms upon a flower stem about four feet high, on which it bears from twenty to thirty crowded, fragrant, drooping, bell-shaped flowers; admirably adapted for growing in clumps, in borders, or on lawns. Keep bulbs from frost, 10c.

HELITROPE.

Indispensable for pot or bedding plants, admired for their fragrance and delicately tinted flowers. They require a sunny, warm position.

Albert Delias. Foliage beautifully variegated green and yellow; flowers very large, bright lavender. A very charming variety, 7c.
Mrs. Burgess. Color fine dark violet; one of the best dark sorts, 6c.
Mrs. David Woods. A rich violet blue, with conspicuous white eye; a fragrant, early and constant bloomer, 7c.
White Lady. Strong, of free branching habit, and is very profuse in bloom. The flowers are large, and are a perfect white, 8c.

HYEYVESUCKLES.

Hiliana. This is an exceedingly valuable hardy climber. Flowers pure white, turning to pale yellow, with the fragrance of the Cape Jasmine. Very hardy and vigorous, 9c.
The leaves are variegated with golden-yellow and green, making it one of the finest of all ornamental foliage plants. It is a large and rapid grower, and will soon cover the house. Fragrant yellow flowers, 10c.

JAPANESE PINK SPIDER LILY.

HYDRANGEA.

Hortensia. A well known and favorite old plant, producing large heads of bright flowers, which range from white to blue and pink. 7c.
Gynocalia. A valuable new variety, producing immense masses of bright rose-colored flowers. The new growth of wood and flower stems are of a deep purple, giving it a distinct and attractive appearance. 8c.

**HYPERICUM**

This is a hardy, graceful habit, growing two feet high and is a perfect mass of rich golden color when in bloom, producing its large golden-yellow flowers in great profusion. Worthy of a place in every garden. 6c.

ICE PLANT.

Variegata. A beautiful variegated form of this popular plant. The gliterring, key foliage is elegantly pure white. 10c.

IPOMEA.

Grandiflora. This is the favorite white Moonflower, growing profusely and producing flowers fully six inches across. 10c.
L. This is the Blue Moonflower, a quick growing climber, with flowers about four inches across, of a rich violet blue, with five purple rays, 7c.

IVY.

English. A splendid evergreen climber for the large flowered ivy. Good for pot, garden and vine, 1c.
German. Of rapid growth, beautiful green, glossy foliage, fine for house culture, 7c.

HOYA CARNOSA.

This charming plant has thick, fleshy leaves, growing moderately fast, and bear- ing umbels of beautiful flesh colored flowers, from which are exuded large drops of honey-like juice. One of the most useful for house culture, as it stands the extremes of heat and cold better than most plants, and is not easily injured by neglect.

KLIDNE.

The candle plant, with large round fleshy stems, a pretty frosted appearance, dis- tinctly marked with curious designs, foliage cut-like ivy and tinted with purple underneath, yellow flowers, 2c.

LANTANA.

Exceedingly valuable for bedding, and fine for pot culture. Unnamed varieties, 9c.
Weeping Lantana. A rapid grower of trailing habit, with lovely dark green foliage; blooms luxuriantly and bears dark rose-yellow, 7c.

LICONIA. This is a fine lily, easily grown. Pure albus lilies flower in May. 1c.

Loropetalum. Rare, and elegant up- right flowers of a rich soft rose, 6c.; 3c. for 3 c.
L. T. Brown. Valuable, bearing double orange-red flowers, 6c.; 2 for 5c. 8c.
L. T. Dark Red. A fine dark red, 6c.; 2 for 5c.

**LILIES**

ABRANTHE. White petals, striped with yellow and spotted with crimson, 1c.

ELEGANS AUREUM MACULATUM. Grows about one foot high, has a flower stem a foot high, with flowers of very large, white, black and crimson. 6c.

SEPESCUM ANUM. This is a fine lily, easily grown. Pure albus lilies flower in May. 1c.

SEPESCUM ROEUS. White, shaded with deep rose and spotted, 8c. 7c.; 2 for 5c. 8c.

TIGRINEM FL. PL. (Double Tiger Lily). A stately variety, bearing double orange-red flowers, 6c.; 3 for 5c. 6c.

THRESHOLD L. SPIDER LILY.

This plant produces an immense number of rich pinkish salmon flowers during September. The flowers are large, with large undula- ting petals. Nothing will attract more at- tention than this beautiful plant, and it will pay for an esteemed acquisition in any collection. 10c.

BLACKBERRY LILY.

(PARDANTHUS SINENSIS.)

The Leopard or Blackberry Lily is the name given to this curious Chinese lily, bear- ing a flower stalk which bears a high number of flowers of the richest colors, yellow- and orange-spotted with purple and crimson; the flowers are succeeded by fruits, which can scarcely be distinguished from those of the Blackberry, and are exceedingly ornamental and for mixing with bouquets of dried grasses. This plant is perfectly hardy.

LOTUS PELORIS.

Nothing prettier under the sun for a hanging basket than the delicate silver green feathered foliage, drooping in graceful sprays. The flowers are white and, when in flower, a grand sight, the brilli- ant droop giving a new view of things under a quaint orchid. Pretty, wether in bloom or not, 8c.

MARGERITE—PARIS DAISY.

This is very valuable for cut flowers; pro- ducing stately, flat-topped globes. Fine for bedding or pot culture.

White. Large and beautiful flowers, 5c.
Yellow. A new and pleasing shade, 5c.
PACKETS VEGETABLE SEEDS, Beet, Cabbage, Lettuce, Melon, Radish and Tomato. 10 CENTS.

MADERIA VINE.

Of rapid growth, suitable for covering arbors, etc. Each packet contains several flower spikes, from 10 to 15 inches long, with numerous small side spikes, making it exceedingly floriferous. Flowers of a bright orange red, of perfect and graceful form. Plant out during summer and keep bulbs dry in winter.

DARKER.

A beautiful greenish shrub, the leaves of which emit a delightful color when touched.

NERINE.

Sarniensis. (Guernsey Lily.) These bulbs shoot up stems 1 to 24 inches, crowned with lily-like leaves about two inches across, colors very brilliant, and in the sunlight glisten as if sprinkled with gold dust. A grand pot plant.

OTHONIA CRASSIFOLIA.

A charming basket plant, with round fleshy leaves which are very bright yellow flowers. Fine for building, as it delights in hot summer's sun.

OLEANDER.

These plants are well adapted for culture in pots and boxes, to be used in adorning the lawn or plant collection in the summer as they are easily managed to produce an abundance of bloom.

White. This is the double white with others. Very large flowers.

Double Pink. Large, double pink flowers.

This is a beautiful dwarf orange, growing about four feet high and bearing a number of beautiful medium sized orange which are very attractive. Its special merit, however, is its free blooming qualities. It produces flowers in great abundance, and when in full bloom is loaded with its fragrant white flowers, it is a sight worth beholding.

URNS.

These are largely used, of easy culture, vigorous growth in any soil and noted for the wonderful size and attractiveness of their flowers, which in many sorts are fully half a foot in diameter, well rounded and perfectly double. Gourgeous in size and appearance they become, and make graceful additions when one includes their delightful perfume, which rivals the roe in sweetness. They bloom in June.

LARGE PINK. 15c.; 2 for 25c.

PALM-FLOWER.

A palm-tree shaped flower, with small tubular-shaped flowers of a rich, lily scarlet color, shading to a bright yellow at the tip of flower. It commences to bloom when very small. A valuable plant for trifles, vases or borders.

MEXICAN PRIMROSE.

Beautiful saucer-shaped flowers of a charming pink, touched with darker lines, of neat airy appearance, a free bloomer, and of the easiest culture.

MONTREZIA.

A beautiful plant, resembling somewhat a gladiolus. Each plant bears six to seven flower spikes from 10 to 15 inches long, with numerous small side spikes, making it exceedingly floriferous. Flowers of a bright orange red, of perfect and graceful form. Plant out during summer and keep bulbs dry in winter.

MYRTLE.

A beautiful evergreen shrub, the leaves of which emit a delightful color when touched.

PARROT'S FEATHER.

An exquisite suitable for hanging baskets. It has trailing stems with wheels of delicately cut leaves. Plant in a water tight hanging basket when in bloom, and keep the soil covered at all times, and in a month or two, the beautiful flower stems will droop gracefully over the sides, presenting a charming effect.

PASSION FLOWERS.

Graceful flowers for window culture, and can be planted out during summer.

Constance Elliott. This is an exquisite fragrant white variety.

Pardini. A beautiful flower, with a grand combination of colors, such as blue, lilac, carmine, etc. Blooms freely when only several feet high.

PELLARGONIUMS.

(LADY WASHINGTON GERANIUMS.)

These are remarkable for their large showy flowers, and for brilliancy of color and markings which are unsurpassed as plants for pot culture. Fine assorted varieties, 7c.; 4 for 25c.

Crimson King. Bright crimson, very large flowers.

Fairy Wand. A rich glowing flesh pink, with dark blotches. 10c. Victor. Deep rose, blushed with white and marked with very dark blotches. 10c.

Beauty. Crimson-maron shading to white, dark spotted in the petals. 10c. Mrs. Robert Sandiford. A double variety with beautiful ruffled edges, and of a gloriously glowing white color. 10c.

Sirena. A beautiful crimson variety, with pure white stripes; a very fine bloomer. 10c.

Madame Thibault. An extra large flower, with five ruffled and fringed edge. Color a beautiful shade of easy pink, marked and blotched with white. A robust grower. 10c.

PERENNIAL PHLOX.

Charming hardy plants, of easy culture. 5c.

PALM-CHLOREMBERG EXCELSA.

A beautiful free growing plant, with small tubular-shaped flowers of a rich, lily scarlet color, shading to a bright yellow at the tip of flower. It commences to bloom when very small. A valuable plant for trifles, vases or borders.

PALMS.

Areca Lutescens. This is a very elegant Palm, one of the finest for decorative purposes. Leaves pinnate, the division taper-pointed, very easy growth.

Chamaerops Excelsa. From Southern China and Japan. Very hardy, having stood three degrees Fahrenheit with but slight covering. One of the very best palms for house culture. In cold climates, forming a fine specimen standing in.уз. use remarkably well. Very handsome pinnate leaves. 10c.

Pacula Biondii. One of the most favorite Fan Palm, beautiful in all stages of growth. No plant is more easily grown, and none more tenacious of life, enduring the dust, the cold, and heat from open windows, and gas heated rooms or even our dwellings.

Phoenix Canariensis. One of the finest, most hardy and rapid growing of the Date Palms, being in every way desirable. Plant in a window or vase, and it will thrive and bloom.

Alder. White, sprinkled with crimson. 10c.

Altai. Pure white, a fine bloomer. 10c.

Cremosa. A rich deep crimson. 10c.

Pink Beauty. A charming pink variety. 10c.

Wilna. A large flowering white variety. 5c.

PHIALADELPHII.

The popular Mock Orange. A desirable hardy shrub of easy culture, white flowers.

PHYSIANTHUS ALBENS.

This is a beautiful climber with thick glossy leaves, bearing large double white flowers, that have the peculiar attraction of being strongly perfumed, which are particularly well adapted for cardio decorations. They bloom freely and will flower equally well in a window plant.

PRIMULA.

This is the popular Chinese Primrose, a fine house plant giving universal satisfaction. It requires to be kept cool, a north situation sitting best. One of the best winter bloomers. 5c.

ROSES.

SUPERB EVER-BLOOMING ROSES.

La France. No Rose can surpass this in delicate coloring which is difficult to describe, but the prevailing color is light silvery pink, shaded with silvery peach. 10c.

Marie Guillard. Perfection in form, flowers large and double the center. Color a pale yellow, marked with deep rose. 25c.

Agrinica. Rich velvet crimson, a very fine bloomer, and very satisfactory. 25c.

Snowflake. A very floriferous white variety. 5c.

Madame Wieland. An extra fine variety. A soft pale yellow, sometimes cream, with short inner petals of glowing orange. 25c.

Marie Guillard. Perfection in form, flowers large and double the center. Color a pale yellow, marked with deep rose. 25c.

Queen of Jerusalem. Unusual large golden yellow flowers, large and beautifully formed. Handsome in every stage of development. 25c.

Marchali Neill. Flowers extra large, very double, deliciously fragrant and of a deep golden-yellow color. 10c.

HARDY PINKS.

These are exceedingly free flowering, hardly spring bloomers. 5c.

Earl of Carlisle. Various shades of maroon and white. 5c.

Her Majesty. The flowers which are of a large size, similar to a carnation, are of the purest white and very fragrant; the blooms promise of merit. 7c.

Snow. Of dense, low growth, completely covered with snow-white flowers. 5c.

DOUBLE PETUNIA.

The Double Petunia is one of the finest bedding plants for the exposed hedge. The brilliancy and variety of its color, combined with the duration of its blooming period makes it particularly valuable for garden decorations. With careful culture it makes a splendid effect.

Ada. White, splashed with crimson. 10c.

Alba. Pure white, a fine bloomer. 10c.

Cremosa. A rich deep crimson. 10c.

Pink Beauty. A charming pink variety. 10c.

Wilna. A large flowering white variety. 5c.

PRIMULA.

The popular Mock Orange. A desirable hardy shrub of easy culture, white flowers.
SWAINSONIA.

Papa Gonier. The flowers are large and long, of a dark carmine crimson, changing to pale rose, 10c.

POLYANTHA ROSES.
Dwarf-growing, profuse bloomers, there being sometimes as many as 100 buds and blossoms on one plant. They are healthy and thrifty, and quite hardy—a great merit.

Clothilde Soupert. A hybrid Tea and Polyantha rose; pearl white, carmine center, 5c.

Mignonette. Full and regular, perfectly double; clear pink, changing to white, 5c.

Miniature. One of the most beautiful miniature roses, flowers of an exquisite and regular form. Color white, slightly tinged peachy-pink. A profuse bloomer, 7c.

HARDY CLIMBING ROSES.

Crimson Rambler. This is a hardy climber with numerous trusses of deep crimson flowers; blooms profusely, and is a gorgeous sight when in full flower, 10c.

Yellow Rambler. This is similar to Crimson Rambler except in color, which is a decided clear yellow. This is the only hardy yellow rose in cultivation. Small plants, 10c. Large plants, 15c.

Baltimore Belle. Pale blush, nearly white; one of the best climbers, 5c.

Seven Sisters. Blush changing to crimson, free flowering and fragrant, 5c.

Mary Washington. A wonderful free blooming white variety. 10c.

HYBRID PERPETUAL ROSES.

This class is hardy, and will withstand the rigors of our severest winters if protected.

Ball of Snow. A finely formed, pure white rose. Beautiful bell-shaped petals, 10c.

General Jacquemin. Brilliant crimson, very large globular form; free bloomer, 10c.

General Washington. Rose carmine, unusually glossy and brilliant; well-formed, 10c.

Jean Liabaud. A rich dark maroon, almost black. A very grand rose. 10c.

Madam Plantier. A grand white rose; especially fine for cemetery planting. 10c.

Paul Neyron. Intense size; probably the largest of all; color deep rose, 10c.

RUDBECKIA.

SANSEVERIA ZEALANICA.

A decorative house plant, with long sword-like leaves, beautifully striped crosswise with white variegations on a dark green ground, 8c.

SAXIFRAGA SARMENTOSA.
The Strawberry Geranium; for baskets. 6c.

SOLANUM.

Grandiflora. A very fine climber for the house and out doors during summer, bears a profusion of beautiful star-shaped, pure white flowers in enormous clusters. 5c.

Azurum. In this variety we have a splendid companion to Solanum Grandiflora. It is of vigorous growth, climbing rapidly, soon forming a dense mass of bright green, bears immense panicles of beautiful azure blue flowers that drop gracefully from the suspended vase. It is splendid for garden or pot culture, 8c.

TRADESCANTIA-MULTICOLOR.

*SWAINSONIA.*

Galigiois Alba. This is one of the finest climbers for the house and protected spots in the garden. It is as easily grown as a geranium, and ought to have a place in every collection. The finely cut foliage, and the beautiful white flowers, which resemble sweet peas, is a grand and glorious sight which will be long remembered. If desirable this plant may be trained in a bush form, 5c.

Galigiois Rosa. This is similar to Alba except in color which is a deep rose. 3c.

SALVIA SPLENDENS.

A well known brilliant colored bedding plant, or for pot culture. Scarlet flowers. 5c.

*STAPELIA VARIEGATA.*

An exceedingly curious and interesting succulent plant, a fine companion for cuets, with which it is sometimes classed though it does not bear the slightest relationship to them. From the base of the fleshy stems appear curious looking for-coloured buds, which gradually swell until, with a snap, they fly open and the flower, a red-blossoms reveals—a perfect star of very thick, leathery petals which are golden yellow, thickly spotted with dark brown. 5c.

SMILAX.

A fine climbing plant for house culture; valuable in bouquet making. 5c.

*ROYAL PURPLE.*

*STROBILANTHUS DYERIANUS.*

This charming plant surpasses anything we have seen for fine foliage. The combination of brilliant colors is something truly remarkable. The surface of the leaves is furnished with a bluish and metallic hue, shading into light rose with a slight green margin. The long sprays of lovely violet blossoms enhance its beauty. A valuable new plant for bedding and decoration. 8c.

SEMPERVIVUM REPENS.

This is a curious and interesting plant, and has been fitly termed the miniature Banyan Tree, from the peculiar characteristic of throwing out roots from the branches into the soil beneath. 5c.

TRADESCANTIA.

A good basket plant, commonly called Wandering Jew. Very pretty and effective. Multicolor. Foliage variegated green, bronze, crimson and sometimes white. 6c.

Repens Vittata. Bright green, stripe white, very pretty. 5c.

TUBEROSE.

Producing many beautiful pure white, double flowers on upright stems; delightfully fragrant. 10c.

Excelsior Pearl. Large bulbs that is sure to give satisfaction. 8c.

Abito. This is a fine new single variety, bearing large spikes of bloom, and is at least one month earlier than the double sort. Foliage is variegated white and yellow. 5c.

TRITOMA UVARIA.

A splendid half-hardy summer and autumn blooming plant, producing magnificent spikes of rich orange red flowers. Protect well, or keep in pots during winter. 10c.
MIXED SWEET PEAS, 6c. per ounce, 12c. per quarter pound, 35c. per pound, by mail, postpaid.

VERONICA.
Plants producing during fall and winter dense spikes of flowers of a beautiful rose color, changing to white. Few plants are more effective or pleasing, 6c.

VINCAR.
Harrisoni. A variety of strong growth, Margin of leaves a rich dark green, with central portion yellowish green. Light blue, sur- rounded by flowers. 6c.

VANDENS. Fine basket plant; leaves glossy green, broadly margined with white. 7c.

VIOLET.
Marie Louise. Bold, fine flowers, very fragrant and very prolific. The color is of a dark blue. Flowers double. This is the favorite Blue Violet, 6c.

Swanley White. Vigorous and healthy, bearing immense numbers very large and perfectly double flowers of pure snowy, whiteness and unexcelled fragrance, 6c.

VERBENA.
Nothing can equal the Verbena as a bedding plant if flowers is requisite, as no other plant is so profuse in bloom or present so many striking colors. Unnamed varieties, 5c.

PINK WATER HYACINTH.
POSTHORAMA CLAVISSE MAJOR.
This is a remarkable plant of an aquatic nature. Bearing on top of the root, rosette growing downward and entering the soil, it bears spikes of rich orchid-like flowers, of a beautiful soft violet tone, the upper petal blushed with metallic blue and marked with a golden yellow stripe. It grows best in water in the open air during summer. Three rich soil in the bottom of the vessel in which it is grown, 5c.

VERONICA.
VIBURNUM. (SNOWBALL).
Picalum. This Japanese variety of the old fashioned snowball is one of the most valuable of our hardy shrubs. It forms an evergreen compact shrub six to eight feet high; blooms profusely in early June and for a long time is a solid mass of white, the plants being completely covered from the ground to the top of the branches with large balls of flowers as white as snow; offers as many as 30 balls of flowers on a branch sometimes long, 3c.

Rose Wax Pink. This is a free blooming plant, with round luscious leaves and rich rose colored flowers. The size of half of brightening up every day. It is excellent as a basket plant, and is best arranged for planting in a sunny situation out of doors, where it will bloom profusely throughout the entire summer. 5c.

Oxwax. A charming variety with hooded, scented leaves, bearing delightful double rose colored flowers, a large grand plant, and of the easiest culture, 7c.

WIEGELIA.
Beautiful shrubs that bloom in June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage, they are very hardy and require no staking or for grouping, and also as successor plants for the front of borders.

Rosea. Beautiful rose colored flowers, 12c.

ZEPHYRANTHES.
These are among our most beautiful dwarf liliaceous plants, very effective for planting in masses in May, flowering in great profusion during the summer. They are suitable for pot culture, and will make a fine display when a number are grouped together.

Candida. Pure white, and the freest bloomer of all. They produce a long, 7c.

Rosea. Beautiful rose colored flowers large and free flowering. These grow best; blooms all summer, and is greatly valued, 3c.

Ivan. This beautiful variety has rich sulphur yellow flowers, a pleasing contrast to the other colors, 2c.

**CHOICE FLOWER SEEDS.**

My Flower Seeds are fresh and of the best possible quality. I think I can please you in flower seeds, since I have spared no pains to secure the very best obtainable. Seeds and plants may be ordered together to secure clubbing terms, but the plant part of the order must not be less than 25c.

**EXPLANATION OF ABBREVIATIONS.**
1. annual, b. biennial; p. perennial; h. hardy; h h, half hardy; t. tender. g. greenhouse.

AERONIA.
A pretty creeping veronica-like plant; most exquisite fragrance. h. a. 3c.

New Schiller. About one foot high, and all covered with very double flowers in charming colors. 3c.

Oxclay German. Very pretty, dwarf, ten colors mixed, 3c.

Pyramidal Bicolor. Dwarf, very compact, each plant forming a perfect bouquet. 11c.

Bravo Mixed. Bright colored mix, 4c.

Fusilier. The Markle's earliest of all, and very free-flowering. Mixed, 3c.

Fusilier Mixed. Priced 25c. 3c.

BALSAM.
One of the most valuable summer blooming plants, producing enormous amount of blooms. The Balsam should be transplanted from the seed bed; if left where sown, flowers will not produce double blooms. They are excellent for the margin and borders.

Burpee's Delicate Balsams. This is a wonder of perfection, producing such an enormous number of perfectly double flowers as to com-
3 RAMBLER ROSES. Crimson Rambler, White Rambler, and Yellow Rambler, postpaid for 25 CENTS.

CENTAURIA—MARGARET.

pletely cover the plant. Enormous flowers and rich colors. 4c.
The Pride Camellia. This is the finest strain of double Rhododendron ever brought out—10 colors mixed. 3c.

REGONIA.

These popular plants are excellent for both house and garden, t.p.
Single. Tuberous-Rooted. A fine mixture of large flowering bulbs. 5c. per pkt. Bulbs 3c. each.

BELLIS PERENNIS.

This is the much admired Double Daisy, one of the finest spring bloomers. 1 p. 4c.

BRACHYCOMA.

Dwarf plants with pretty cineraria-like flowers, h. a. Fine mixed. 3c.

BROWALLIA.

Handsome plants covered with pretty blue and white flowers h. a. 4c.

CACTILIA.

Showy plants of easy culture, producing rich tassel-shaped, yellow flowers. 3c.

CALCEOLARIA.

A superb ornamental house plant, producing a mass of pocket-like flowers early in spring. 2 p. I offer a mixture of large flowering varieties. 6c.

CALENDULA.

Beautiful hardly annuals, making a grand display with their double orange yellow flowers. 5c.

CALLIOPSIS.

Stately hardly annuals, grows rapidly and produces a wonderful mass of bloom. The flowers are fine for bouquets and should be cut freely, as they thus bloom more freely. 3c.

CARDUI.

These are excellent for cut flowers, and unsurpassed for masses. h. a. 3c.

CANNON.

This is exceedingly ornamental and imports a tropical appearance to any garden where it is grown. Soak seed in warm water. 1 p. (Cape's New Dwarf Hybrid. Fine mixed. 4c.

CANARY BIRD FLOWER.

A rapid climber, producing an abundance of canary colored flowers. h. a. 6c.

CANTERBURY BELLS.

Popular hardy herbaceous perennials, bearing a great profusion of bloom. 5c. Single. Fine colors mixed. 3c.

CARNATION.

Remarkable for delicate markings and delightful fragrance. 1 p.

Double. Very pleasing colors mixed. 4c.

CARYLCEM.

This is a fine hardy herbaceous perennial, rivaling the camellia in scale of bloom. It forms a dense mass six to eight feet high, which through July and August is covered with sweet pea-like blossoms one and a half to two inches in diameter. The color is a lovely shade of lilac-blue with feathery markings of a deeper shade and a dash of pure white in the center of each flower. It is perfectly hardy and will thrive everywhere. 4c.

CHRISTANOMEN.

A very popular annual that succeeds with very little care in almost any situation. 8c.

CINERARIA.

A very popular plant for house culture, blooming during winter and spring. 2 p. Single. Finest varieties mixed. 5c.

CINERARIUM.

A very popular plant for house culture, blooming during winter and spring. 2 p. Double. An excellent strain. 6c.

CENTAUREA.

One of our most attractive hardy annuals, constant and free bloomer. Excellent for cut flowers. Rich colors. 3c.

Margaret. This produces pure white flowers, delicately scented, exquisitely lovely, and freely produced on long stems, which render them valuable for cutting. 4c.

COCKSLEAF.

Free-flowering, attractive hardy annuals, producing rich, airy flowers of delicate colors. 3c.

COLEAE SCANDENS.

A quick growing climber, with large bell-shaped purple flowers. Plant seeds edgeways to facilitate germination. h. a. 3c.

CUCUMBER.

Curious and interesting, a most satisfactory garden plant. h. a. 4c.

DELPHINIUM.

This is a universal favorite in all gardens, and no flower is more attractive. p.

Single. Finest varieties mixed. 4c.

Double. Superbly mixed. 7c.

DAHLIA.

Remarkably large trumpet-shaped flowers. 4c.

Alba. Double white. h. a. 4c.

Violets. Double purple. 4c.

Corolla. Large, handsome flowers, often 8 inches long; inside white; outside purple, spotted with deeper color. 10c.

DELFONIA.

This is a universal favorite in all gardens, and no flower is more attractive. h. a. 4c.

Double and Recket. Nycanthium-flowered, annual variety. 3c.

Perennial Variety. Fine mixed. 5c.

CROCOSMI.

One of our finest foliage plants, sporting in an endless variety of colors and shades. I offer a selected strain. 1 p. 5c.

COSMOBIS.

Plants growing fully 5 feet high, covered with hundreds of showy blossoms two inches in diameter; rich colors. h. a.

Fine Mixed. A collection of fine varieties. 4c.

Monster White. Very large and beautiful. 5c.

Dawn. This new variety comes into full flower in July, and continues a mass of bloom until cut down by severe frost. It is a dwarf, compact growth, and produces large white flowers, tinted with delicate rose at the base of the petals. 6c.

CROTOLARIA RETUSA.

(Weird Indian Rattle Box.)

This is a low growing, profusely branching plant, having large, golden yellow, sweet-pea-like flowers. These are followed by clusters of short, smooth pods in which, when shaken, the seeds sound like a rattle, hence its name. 4c.

CUPRENE. (Lady's Cigar Plant.)

A very free flowering plant, bearing tubular flowers of a bright red color, tipped with white. h. a. 5c.

CYCLAMEN.

One of the most popular winter blooming plants, with beautiful foliage and rich orchid-like, fragrant flowers. 1 lb. 6c.

DAHLIA.

This is a universal favorite in all gardens, and no flower is more attractive. p.

Single. Finest varieties mixed. 4c.

Double. Superbly mixed. 5c.

NARCISSUS.

Remarkably large trumpet-shaped flowers. 4c.

Alba. Double white. h. a. 4c.

Violets. Double purple. 4c.

Corolla. Large, handsome flowers, often 8 inches long; inside white; outside purple, spotted with deeper color. 10c.

CUCUMBER.

This is a universal favorite in all gardens, and no flower is more attractive. h. a. 4c.

Double and Recket. Nycanthium-flowered, annual variety. 3c.

Perennial Variety. Fine mixed. 5c.
PLANTS and BULBS.

Acaphyla Tricolor, highly colored foliage plant. 8c.
Artillery Plant, fern-like foliage and small crimson flowers. 7c.
Begonia, double tuberos-rooted, very fine bulbs, 15c.
Caladium Excentatum, stately plants with large leaves. 12c.
Canna, grand for specimens and massing. 12c. each.
Charles Henderson, crimson.
Eugandale, dark, brown leaves.
Florence Vaughan, yellow.
Madame Crozy, scarlet.
Clenatus Paniculata, a strong vigorous grower, remarkably free flowering; pure white; very fragrant.
Strong plants. 20c.
Gloxinia, a most popular plant for window culture. Fine bulbs, 10c.
Hibiscus Sinensis, these make handsome plants in large pots or tubs. Decorus, rose-carmine; large. 8c.
General Courtigis, scarlet. 8c.
Miniatum, large-double-crimson. 8c.
Zebrina, yellow and scarlet, 8c.

SOME INTERESTING THINGS, OMITTED FROM CATALOGUE, BUT TOO GOOD TO LEAVE OUT ALTOGETHER.

Jasmines, elegant shrubs and vines, delicious fragrant flowers.
Grandiflorum, flowers pure white, star-shaped; very fragrant, 8c.
Grandiflorum, clusters of white flowers, delightfully fragrant. 8c.
Mail of Orleans, large flowers, 8c.
New Lemon of Sicily, a splendid new decorative plant, flowering while quite small and bearing choice medium-sized lemons. 15c.
Violets, these are charming little plants, fine for shady situations.
Lady Hume Campbell, a persistent bloomer, dark purple, double. 7c.
California, this grows remarkably large, a free bloomer, 7c.

GERANIUMS.
Gilded Gold, deep orange, large and double. 7c.
Wonder, large single scarlet. 7c.
White Distinction; fine bronze, 7c.
Charles Turner, double ivy, pink. 7c.
Eden Marche, double ivy, rose. 7c.

HARDY SHRUBS
Forsythia, an elegant shrub. 7c.
Hydrangea Grandiflora, white. 12c.
Spiresa Revessi, white. 7c.
Anthony Watterer, crimson. 12c.
Blue Spirea, a fine sort. 10c.
Snowball, large white flowers. 7c.
Wisteria, a fine hardy climber. 8c.

HARDY PLANTS.
German Iris, fine hardy plants. 7c.
Homoeocalis, stately hardy plants.
Dumortier, lovely lily-like flowers of a bright orange color. 7c.
Kwanzo fl. pl., large double, copper-colored flowers; in bloom all summer. 10c.

Holt's Mammoth Sage, very large; produces no seed, 7c.

ROSES.
Pink Rambler, a charming hardy climber, with pink flowers. 10c.
White Rambler, hardy climber. 10c.
Empress of China, perpetual blooming hardy climber; red. 10c.
Wichuriana, hardy white. 8c.
Mand's Triumph, white, hardy. 15c.
Universal Favorite, rose, hardy. 15c.
Sweet-brier, lovely hardy roses of exquisite fragrance. 15c.
HELIOTURE.

Deliciously fragrant plants, excellent for bedding and pot-culture. t. p. 4c.

A fine everlasting, extra double; rich dark colors. h. a. 3c.

HOLLYHOCK.

This is an old favorite. My strain of double Hollyhock is unsurpassed for richness of color and size. 5c.

HYACINTHUS CANDICANS.

A large growing summer blooming hyacinth, with pure white, bell-shaped flowers, on erect stems two to three feet high. 4c.

ICE PLANT.

A fine basket plant, with glittering, icy foliage and white flowers. h. a. 3c.

IMPATIENS SULTANI.

A fine pot plant, also very desirable for planting out during summer, producing its carmine flowers in great abundance. t. p. 5c.

IPOMOEA.

Japanese imperial. These are wonders of brilliancy in coloring, and marvels of effect in size. Combining beauty and size as it does, it is beyond a doubt the most gorgeous flower that has been introduced in many years. It is a rapid grower, climbing 20 feet. t. p. 4c.

Wht. Tassel. This might be called an "All-day Glory," for it remains open during the entire day. It is white, very double and fringed, with delicate purple marks in the center of the flower. It is a charming thing, and resembles a dainty white tassel. t. a. 6c.

Quamocit. This is the popular Cypsis Vine, a climber with delicately cut foliage and pretty white and scarlet flowers. 3c.

LANTANA.

Handsomed, free-blooming plants, very effective either for pot culture or bedding. The flowers have changeable colors. t. p. 5c.

MARIGOLD.

This is a very beautiful and striking plant, with a great variety of colors. h. a.

Large African. Tall, double, orange, brown and yellow colors in mixture. 3c.

Dwarf French. Fine colors, very double; fine mixed. 3c.

MIRANDA.

A beautiful climber, suitable for house and out-door culture, producing its white and purple flowers in abundance all summer. t. p. 4c.

MINA LOIATA.

A beautiful climber, with elegant spikes of flowers; the buds a bright red, fully expanded flowers yellow, more or less in contrast, t. a. 4c.

MIRABILIS.

This is the popular Pour O'Clock, a universal favorite and a most satisfactory bloomer. 3c.

MIGNONETTE.

The delightful fragrance and easy culture of this old plant makes it one of the most popular annuals.

Grandiflora. A fine mixture of large flowering varieties. 3c.

Golden Queen. A new yellow variety. 4c.

Machet. A new red variety, fine for pot culture. 4c.

Miles' Spiral. Finest white variety. 4c.

DOUBLE PETUNIA.

Cattie's Crimson. Deep crimson, 3c, oz. 10c.

Luteum. Fine yellow. 3c, oz. 10c.

Petunia. Creamy white. 3c, oz. 10c.

Prince Henry. Light yellow, marbled and spotted with scarlet. 4c, oz. 15c.

Resem. Fine rose. 3c, oz. 10c.

Dwarf Mixed. 3c, oz. 10c.

NICOTIANA—AFFINIS.

Nicotiana. A rich orange-flowered plant with large fragrant white flowers. Fine for groups; may be taken into the house in the fall where it will bloom during winter. 5c.

Colossea. Attains a height of six feet during one summer; immense leaves, at first rose and violet, afterward changing to deep green with red veins. A gigantic and imposing ornamental-foliaged plant for lawns, giving an elegant tropical effect. t. p. 6c.

Trimardeau. Extremely large flowers, with fine colors and beautiful markings. 6c.

King of the Blacks. Almost coal black. 3c.

Silver Banded. Violet, with beautiful border; a very charming variety. 3c.

Snow Queen. A charming white variety. 4c.

Gold Banded. Dark mahogany, with golden edge. 5c.

Improved Striped. A new variety richly marked with distinct stripes. 5c.

Dark Blue. Large and fine. 3c.

Light Blue. Large and grand. 3c.

Cassier. This is the Five Blotched Giant, one of the largest and the most gorgeously colored Pansy yet brought out. 8c.

Odie. A giant blotched variety. 5c.

PETUNIA.

A splendid plant for bedding and massing. t. p.

Double Fimbriata Grandiflora. A very excellent strain will produce many fine double fringed flowers. 7c.

California Giants. Very large and fringed flowers in gorgeous colors. 5c.

Finest mixed. 3c.

PHLOX DRUMONDI.

For a splendid mass of color and a constant display, this annual cannot be equaled, the colors ranging from the purest white to the deepest crimson. I offer a strain of the best large flowering varieties in superb mixture. 5c.

PERENNIAL PHLOX.

Few hardy flowers harmonize with this for effect and display; h. p. 5c.

PLATYCODON GRANDIFLORA.

A hardy perennial with large fringed flowers 3 inches across, of beautiful blue and white colors. h. p. 5c.

PORTULACA.

Low growing plants of easy culture, blooming all summer. Fine for massing in beds, t. a.

PLATYCODON GRANDIFLORA.

A hardy perennial with large fringed flowers 3 inches across, of beautiful blue and white colors. h. p. 5c.

PRIMULA. (Chinese Primrose.)

One of the most satisfactory house plants that can be grown from seed. Superfine Mixture. Finest fringed. 6c.
PRIMULA OBCONICA.

A perfect flowering plant, bearing pure white flowers, occasionally shading to blue, and having the true primrose fragrance. It is in all respects a lovely flower, and its beauty known it will be appreciated at its true worth. h. p. 5c.

POPPY.

One of the most showy garden plants; flowers large and very brilliant. h. p. 5c.

American Flag. This new variety is very double and charmingly colored: a pure white ground margined dark orange scarlet. Very large and conspicuous. 5c.

Brilliant. This new variety has freely fringed petals, which are pure white, with bright tinge, scarlet, rose, purple and other shades. The colors of the petals are very much like those of the leaves. Very beautiful and graceful. Very large and conspicuous. 5c.

New Mixado. Of pure white and brilliant crimson: large, double, and a quaint, artistic beauty, with petals deeply cut and fringed. 4c.

Shirley. A new strain of remarkable beauty. The colors range through all shades of delicate rose, pink, carmine, and brilliant crimson. Many of the flowers are edged with white. 3c.

Double mixed. A very fine strain. 3c.

Zanibariensis. This grows to mammoth proportions, the plant attaining a height of twelve to fourteen feet. The leaves are fully two feet and a half feet broad, beautifully lobed; the whole plant has a distinct and novel appearance, enhanced in the sunshine by a bright metallic line; they charn at first sight, and their usefulness is very great. Solitary on the lawn, it makes a perfect pyramid of foliage, thickly set with gigantic leaves; a dozen in a large bed make a most picturesque sight. 5c.

Mixed Varieties. Very fine sorts. 3c.

LITTLE MIDGET ROSES.

Dainty little rose dots, double and semi-double, that grow in clusters, like double crab apple blossoms. These are followed by clusters of bright red hips that are very pretty. 3c.

SWEET PEAS.

Aurora. A giant-flowered new sweet pea; the immense flowers are borne three and four on a stem. The color effect is gorgeous: both standard and wings are flaked and striped on a white ground, with bright orange salmon. 4c.

Ramona. Grand flowers of very large size and improved hooded form, as shown in the illustration. It is a vigorous grower and bears three to four flowers to the stem. Its coloring is delightfully beautiful: a creamy white, daintily edged with pale pink on standard and wings. 4c.

Golden Gate. This is of peculiar form, of good substance and large size, with standard of the hooded form. The nectar is seen in the long pointed wings, which stand tall and parallel with the standard. This nectar is of soft pinkish-mauve; wings a lighter mauve and lavender. 4c. 2 pkts. 7c.

Blanche Dupree. This is a pure white of most exquisite form and immense size; and is a wonderfully free bloomer, it usually bears three flowers on immense long stout stems, the plant being literally bedecked with bloom.

RED RIDING-HOOD.

SOLANTHUM.

PRIMULA OBCONICA.

This charming variety is pronounced by everybody who has seen it as the finest white ever produced, being a perfectly finished flower of the purest white. It may be had in bloom very early if sown in pots or boxes in January, and transplanted to the open ground as soon as March as the ground is fit. This variety is a robust grower, and the flowers are valuable plants among sweet peas. 4c.

Brilliant. This is a bright scarlet of improved form. Of good substance, medium to large size; slightly hewed. It retains its brilliancy of color under the hottest sun,—never becoming marbled or burned. 4c. 2 pkts. 7c.

Naid of Honor. The coloring of this is very beautiful; a light blue on a white ground, shaded and edged with distinct blue. 4c.

Oddity. A marked peculiarity of this is the inclination of the standard to curl, which gives it a novel appearance. Color, pale carmine edged with bright rose. 4c.

Red Riding-Hood. This is an entirely new departure in form, and might be called the "Freak" sweet pea. It is appropriately named "Red Riding-Hood." It is as close an imitation of a diminutive hood as could be made. The standard forms a perfect back, ruffled into the wings which form the sides, from between which the blossom peeps, a halfl of the white head, quite like a face. The standard and wings are a rosy pink, shading to a bluish white at the edges. 4c.

Emily Henderson. This new sweet pea is absolutely pure white, and its delicate coloring and glistening as sata. The flowers are extra large, of remarkable substance, and in form perfection; in profusion of bloom it is a phenomenon, one plant having produced 155 sprays of bloom in one season. 4c. 2 oz. 5c.

The following varieties of SWEET PEAS are sold at the uniform price of 2c. per packet; 2 packets for 5c., 3c.

Adonis. Deep rose and carmine. 3c.

Apple Blossom. Pink and white. 3c.

Blanche Ferris. Rose and white. 3c.

Bronze Prince. Maroon and purple. 3c.

Craie Clair. A tree color variety. 3c.

Carmen Silva. Lavender, shaded rose. 3c.

Crimson of Cahill. Pure crimson. 3c.

Crimson of France. Pure crimson. 3c.

Countess of Warwick. Rose and white. 3c.

Empress of India. Rosy standard; white wings. 3c.

Flora. White, shaded rose and violet. 3c.

Katherine Tracy. Soft but brilliant pink. 3c.

Lottie Eckford. White, edged with lavender. 3c.

Maid of Honour. White and lavender. 3c.

Painted Lady. Rich pink and white. 3c.

Primrose. Pale primrose-yellow. 3c.

Splendor. Rich bright rose and crimson. 3c.

Venus. Salmon-rose, shaded rosy pink. 3c.

Fine Mixed. A hues grown. 1 lb. 30c.; 4 lb. 1.25.

SALPINGLOSSIS.

Richly colored, marbled and pencilled blossoms. Of very culture and great beauty. h. 5c.

GRANDIFLORA. The best. 10c.

SCABIOSA. (Mourning Bride.) Beautiful double flowers of rich colors. Useful for bouquets and cut flowers. h. 5c.

CHINUS MOLLE.

A graceful evergreen tree, with small white flowers, followed by lovely clusters of small red berries. Fine for pots. 5c.

SMILAX.

A charming climber for the house. Fine for decorations and indispensable for bouquet work where delicate foliage is desirable. 10c.

SENSITIVE PLANT.

A curious and interesting plant, with pinkish white flowers; the leaves close and droop when being touched. h. 3c.

STOCKS.

The Stock is one of the most popular plants, giving handsome foliage and pot culture; for brilliancy and diversity of colors or profusion and duration of bloom it is unsurpassed. Best German Large-Flowering Ten Weeks Stock Mixed. 25c.
SOLANUM. Bears brilliant scarlet fruit, which retains its bright color and forms long after ripe; fine for decorative. 3c.

STEVIA. Serrata. A tender perennial, in great favor for cutting purposes; large heads of small white flowers of very graceful effect; suitable for pot culture, flowering in winter, or, if sown early, will bloom in the garden the first summer. 1c.

SWEET WILLIAM. An old favorite plant, which has greatly been improved of late years, producing a splendid effect in beds and shrubbery with their rich and varied flowers. 1c.

Double Mixed. Splendid. 4c.

Harlequin. This is very attractive, bearing numerous large heads of flowers, from 4 to 5 inches across, each head being composed of different colors. Excellent as a string bean, crimson, white, pink, flesh, striped, etc.; these colors banking against each other in charming confusion, produces a very bizarre effect, and brings out a richness and vividness of coloring by the sharp contrasts that we have never before seen equalled. 6c.

THUNBERGIA. A free-blooming climber well adapted for the house or warm situations out of doors. 2c.

TORENIAS Fournier. Fine for house and out-door culture. They are covered with one mass of bloom throughout the season. Flowers velvety-blue, with spots of dark blue and a bright yellow throat. 1c.

VALERIANA. (Hardy Heliotrope.) A beautiful border plant, bearing large corymbs of small scarlet, white and red flowers. Very fragrant and fine for bouquets or cut flowers, b. p. 4c.

VERBENA. This is a popular plant for bedding, making a gorgeous display of flowers during summer and autumn. I offer a superb strain of the choicest large flowering varieties in charming colors. 4c.

Mammoth. A very large flowering strain. 7c.

VIOLA DORATA. (Sweet Violet.) This is a well-known favorite of profuse blooming qualities, and delicious fragrance. If removed in the fall it will bloom in the house during winter. 1b. p. 3c.

WALLFLOWER. Nothing can excel this for fragrance and beauty. The large double flowers are charming for bouquets. h. b. p. 1c.

ZINNIA. Double Zinnias are quite an acquisition in our list of garden favorites. It rival the Dahlia in beauty and brilliancy. h. a. Finest double mixture, splendid. 3c.

Liliput. Uncommonly pretty are those thickly branching, coqettish little plants, about a foot and a half high, and finely white with tiny short stemmed, very double flowers, hardly exceeding a large daisy in size. It can be used in a pot as well as for groups and borders. 1c.

Pompone. Large, double cone shaped flowers in various pretty colors. 5c.

ABUSABLE GRASSES.

Agrostis Pulchella. Featherly and graceful, h. a.

Andropogon Argenteus. Dense flowers, very silky, with bright white hairs. 4c.

Bromus Brizaeformis. A graceful variety with drooping panicles; flowering first season. h. p. 3c.

Crysanthemus. Very pretty for edging, h. a. 3c.

Coix Lachrymae. (Job's Tears). A fine grass with broad corn-like leaves, and hard, shining, pearly seeds resembling teak. h. a. 3c.

Eragrostis Elegans. (Love Grass.) This produces pretty dancing spikelets, that are very ornamental. h. a. 3c.

Hordeum Jubatum (Squirrel Tail). Very handsome light purple plumes. h. a. 3c.

Lagurus Ovalis (Hare's Tail). Beautiful small white heads or spikes of bloom, excellent for bouquets. h. a. 3c.

Lasiagrostis Splendens. A very fine ornamental grass. h. a. 3c.

Stipa Pennata (Feather Grass). Feathery heads of a very neat and graceful appearance, h. 3c.

Zea Japonica. A species of corn with foliage striped white and green. h.ha. 3c.

VEGETABLE SEEDS.

Some seedsmen are continually harping on the superiority of their seeds, and being so much better they of course must charge a higher price. Many people are by this incessant cry of good seeds at high prices only, lead to believe that the seeds offered by other seedsmen at reasonable prices are of inferior quality. This is an error; any seedsmen that wishes to continue a business is not apt to palm off spurious stock on his customers. If a person in the trade should wish to purchase seeds at wholesale from these high priced concerns they are quite willing to part with their superior stock at ruling prices, which tends to demonstrate that among brethren their seeds are not considered so overpowering superior. I know I can furnish you as good seeds as any other firm, and if I do so at reasonable prices I think I am entitled to a share of your patronage. Unless otherwise specified I will sell 1 lb. at pound rates. Packets, ounces and pounds are sent postpaid at prices given, if sent by express or freight deduct 5c. per pound, 1ec. per quart. Bushels shipped at purchasers expense.

ASPARAGUS.

Conover's Colossal. Large, tender and of good quality. Pkt. 3c, oz. 6c, 1 lb. 15c.

Palimella. Strong and robust growth, a new and superior variety. Pkt. 4c, oz. 7c.

BEANS—BUSH.

Early Mohawk. Very hardy, early and productive. As a string bean, the pods being very thick, succulent and tender. Pkt. 5c, pint 15c, quart 30c, 1/4 bu. $1.00, 1/2 bu. $1.75, bu. $3.00.

Early Red Valentine. One of the best, having round fleshy pods, which mature quickly and remain tender and brittle very long. Pkt. 5c, pt. 15c, qt. 30c, 1/4 bu. $1.00, 1/2 bu. $1.75, bu. $3.00.

Currie's New Wax. This is a universal favorite with market gardeners on account of its hardy and prolific character. Very early and vigorous, yielding profusely. Pods are entirely stringless and of unexcelled flavor. Pkt. 5c, pt. 25c, qt. 35c, 1/4 bu. $1.00, 1/2 bu. $1.50, bu. $3.00.

New Davis Kidney Wax. This is a desirable new variety, highly recommended for market garden purposes. 1/2 oz. wherever tried. A vigorous grower, and a prolific yielder. Pods 7 to 8 inches long, and clean, waxy white. The beans are pure white: excellent when cooked dry. Pkt. 5c, pt. 25c, qt. 30c, 1/4 bu. $1.50, 1/2 bu. $2.50.
Improved Golden Wax. This possesses all the good points of the old Golden Wax, but is larger in pod and of a more-prized flavor. This improved stock is one of the handsomest beans we have ever seen, being of a dark rich golden yellow color and of perfect shape. Tender, rich and melting at all stages of its growth. Pkt. $0.25, qt. $1.00, lb. $1.00, bu. $3.75. Dwarf German Black Wax. The finest of all snap sorts. Pods transparent and snap like pipe stems. Holts rich as butter. Pkt. $0.25, qt. $1.00, lb. $1.00, bu. $3.75. Henderson's Bush Lima. A veritable acquisition that is destined to hold the prominent place accorded it on introduction. Dark compact bush form, requiring no support, and produces enormous crops of delicious lima beans. The earliest of the limas. Pkt. $0.25, qt. $1.00. BEANS—POLE. Large Lima. Large and vigorous growth; luxuriant flavor. Pkt. $0.25, qt. $1.00. Dutch Case Knife. Pods long, green and flat; can be either snipped or sliced when used. Very early and productive. Pkt. $0.25, qt. $1.00. Tall Sioux. Undoubtedly the most productive, and finest quality pole snap bean grown. Pkt. $0.25, qt. $1.00, lb. $1.00. BEETS. Edmond's Early Turnip. One of the most uniform of all turnip beets, with very small top, bronzy red. The bulbs are handsome and round, very smooth and of good marketable size. In quality it ranks with the best, either exceeding tender and sweet; skin deep blood-red; flesh dark red. Pkt. $0.25, lb. $1.50, bu. $4.00. Egyptian Blood Turnip. A standard sort, and by many considered the best variety for forcing, being from ten to twelve days earlier than the old blood turnip. The roots are large in size; hard, crisp and tender when young. Pkt. $0.25, oz. $0.60, $4.12, $40.00. Eclipse. An imported extra early sort. Remarkable for its rapid growth, extreme smallness of top and extra fine quality. Perfectly smooth and round; skin and flesh intensely red; very fine grained and sweet. Pkt. $0.25, oz. $0.60, $4.12, $40.00. Long Dark Blood. Long, smooth, growing to a good size; half out of the ground; color dark blood-red; top small, dark red, of uptight growth; keeps well. Pkt. $0.25, oz. $0.60, $4.12, $40.00. Mangel Wurzels and Sugar Beets. The Sugar and Mangel Wurzel varieties are grown for feeding stock. Sow in April or May in drills 21/2 feet apart, and afterwards thin out to stand one foot apart in the rows; keep well cultivated. One ounce will sow a drill 80 feet in length; five or six pounds are required for an acre. Golden Tankard. A distinct and superior strain of yellow or gold-colored mangels an enormous cropper. It is particularly rich in milk-producing qualities, and on this account is highly prized by dairymen. Pkt. $0.25, oz. $0.60, $4.12, $40.00. Mammoth Long Red. A variety producing roots of an enormous size; smooth and regular in shape, with a small top. Pkt. $0.25, oz. $0.60, $4.12, $40.00. CABBAGE. I take pleasure in introducing to my customers a superior strain of Puget Sound cab-
CARROT—Continued.

Long Orange. One of the most desirable of all carrots, either for garden or field. Culture. It grows to a large size, is very productive, averaging 15 inches in length and three inches in diameter at the top. All who have cattle should raise a surplus of this carrot for feeding milch cows during winter. It increases the flow of milk and imparts to butter a delicious flavor and rich, golden color. Pkt. 3c, oz. 6c, lb. 12c, $1.20.

Oxheart. Tops small for the size of the root, specimens of which have been grown which were over 7 inches in diameter. The tops are broad, top-shaped, the diameter often exceeding the length, and terminate abruptly in a small tap root and by reason of their shape are very easily dug. Flesh bright orange, fine grained and sweet. Excellent for the table and for feeding cows. Pkt. 3c, oz. 6c, lb. 12c, $1.20.

White Belgian. A splendid variety for fattening stock. The roots are surprisingly mammoth in size and the productiveness is marvellously enormous, often yielding fifty tons and over per acre. Exceptionally desirable for its great milk producing qualities. My stock is of superior quality and will give you the very best of satisfaction. Pkt. 5c, oz. 10c, ¼ lb. 15c, ½ lb. 25c, 1 lb. 40c.

CAULIFLOWER.

Earliest Selected Dwarf Erfurt. While we do not claim to have a better strain of this splendid variety than anybody else, we are confident that ours cannot be surpassed. The heads are of a beautiful ivory white, very firm and fine-grained, and measure from eight to ten inches in diameter. Pkt. 10c, oz. 25c.

Extra Early Paris. An excellent early variety. Good for forcing, producing a good head, of dwarf habit, with solid, pure white heads of superior quality. Should be planted very early and will please you as a winter market or family variety. Pkt. 5c, oz. 10c, ¼ lb. 15c, $1.25.

CELEY.

Golden Self-blanching. A French variety which, though but recently introduced, has become a general favorite on account of its extreme ease of culture, its crisp texture and fine flavor, and its exceedingly beautiful appearance. No banking nor blanching whatever is required, but as the same implies, the large golden heart is self-blanching, with the outer stalks becoming a delicate, creamy white. Pkt. 4c, oz. 10c, ¼ lb. 15c, $1.25.

New Giant Pascal. The latest and best addition to the list. A selection from the Golden Self-Blanching, adding to the greater beauty of its parent, superior keeping quality. Stalks very large, thick, solid, crisp and of a rich, nutty flavor, free from any trace of bitterness. It blanches easily and quickly, and retains its freshness a long time after being marketed. The heart is golden-yellow and of attractive appearance. Pkt. 4c, oz. 10c, ¼ lb. 15c, $1.25.

White Plume. This is a natural self-blanching variety, the inner leaves and stem being white, it only requires the earth to be slightly drawn about it to be blanched to perfection. Pkt. 4c, oz. 10c, ¼ lb. 15c, $1.25.

Turnip Rooted. (or Celereace). A variety of celery having a turnip shaped root, which may be cooked and sliced and used with vinegar, making a most excellent salad. Cultivated in the same manner as celery. Pkt. 4c, oz. 10c, ¼ lb. 15c, $1.25.

COLUMBUS MARKET SWEET CORN.

SWEET CORN.

Prices quoted for pints and quarts include postage. If ordered by express deduct 10c per quart. Pecks and bushels are shipped at purchasers expense.

New Columbus Market. This is a very large second early sort; the ears carry an average of 10 rows of fine, large, deep, white and very sweet corn, which are second to none in tenderness and flavor. Pkt. 5c, pt. 25c, qt. 50c.

Early Cress. The earliest of all and the very best extra early sweet corn. Has a large ear, considering the size of the stalk, small cob, well filled with broad grains that are very sweet and of fine quality. The most profitable of all the varieties to grow for very early market. Pkt. 5c, pt. 10c, qt. 25c, 1 lb. 40c, bu. $1.25.

White Cob Cory. This is similar to the Cory in all respects, except that it has a white cob, which makes it a most desirable early variety and will, I am sure, please my customers. Pkt. 5c, pt. 10c, qt. 25c, 1 lb. 40c, bu. $1.25.

Early Minnesota. The old and deservedly popular standard Early Sweet Corn, ripens a little earlier than Crosby's. Eight-rowed ears of good size, sweet, and well flavored. Stalks grow about five feet high. Pkt. 5c, pt. 10c, qt. 25c, 1 lb. 40c, bu. $1.25.

Parley's Hybrid. A very fine early variety, fully as early as the Minnesota and ears much larger and well filled to the ear. Pkt. 5c, pt. 10c, qt. 25c, 1 lb. 40c, bu. $1.25.

Stowell's Evergreen. The Standard late variety. If planted at the same time with earlier kinds, will keep the table supplied till October. It is Hardy and productive, very tender and sugary, remaining a long time in fresh condition, suitable for boiling. Pkt. 5c, pt. 10c, qt. 25c, 1 lb. 40c, bu. $1.25.

POP CORN.

Mapledale Prolific. This new variety is by far the most productive pop corn grown. Grain white and car. popping large, and of the best possible quality. Pkt. 5c, pt. 10c, qt. 25c.

CRESS.

Curled. Extensively used as a salad vegetable while young have a warm pungent taste. Sow rather thick in shallow drills, and at short intervals during the season. Pkt. 5c, oz. 10c, ¼ lb. 15c, $1.25.

CUCUMBER.

Livingston's Emerald. This new cucumber is strictly an evergreen, retaining its color until fully ripe. The fruit is small and its vigorous vines make it an important garden plant. Pkt. 5c, oz. 10c, ¼ lb. 15c.
The most very is lb. that the sweet Iceberg. 20c, Mb.

EGG PLANT. Improved New York Purple. The best variety in cultivation, being early, a sure cropper and of fine quality. Plants large, vigorous, with light green leaves; fruit very large, oval, deep purple; flesh white, tender and of superior quality. Pkt. 3c, oz. 6c, 12c, 10c, 50c.

KOHLE RABI. A vegetable intermediate between the Turnip and Cabbage, combining the flavor of both. The bulb-shaped growth is used when young, very tender and in a few weeks they are delicious, properly prepared. Sow and harvest during early July.

While Vienna. Very early, forming a small, handsome-white bulb. The best early cabbage variety. Pkt. 4c, oz. 8c, 10c, 6c.

LEEK. Broad London Flag. Large, with broad leaves growing on two sides like the flag. The edible stem is large, and of an agreeable flavor. Pkt. 4c, oz. 8c, 14c, 30c, 60c. $1.00.

NEW ICEBERG LETTUCE. A handsome new cabbage lettuce of fine quality. The large, curly leaves which cover outside of the solid heads are of a light green, with a very slight reddish tinge at the edges; they have small indents which hold the dewdrops, and they are thus kept fresh and show a remarkably crystalline appearance, which well warrants their title of iceberg. Pkt. 4c, oz. 6c, 12c, 20c, 50c.

DENVER MARKET. An early variety valuable either for forcing or in open ground. It forms large, solid heads, of a good, light green color and is very slow to run to seed. The leaves are marked and blistered like Savoy Cabbage, and are very crisp and tender. Pkt. 4c, oz. 6c, 12c, 20c, 50c.

HANSON. The best outdoor lettuce, has very little tendency to run to seed. The plant forms a large flat head very solid, resembling a head of cabbage. It is very light in color, delicate in flavor, crisp, tender and sweet. Pkt. 3c, oz. 5c, 10c, 20c, 60c.

Early Curled Simpson. A quick-growing, loose-heading variety which can be used at an early stage of growth; when young it is very sweet and of good flavor. Color, clear light green with leaves very much crimped. Pkt. 3c, oz. 6c, 14c, 30c, 60c.

PRIZE HEAD. A grand variety, forms a beautiful plant; leaves grow upright, the upper part of the outer leaves turning outward very gracefully and are handsomely wrinkled, the edges of the outer leaves are of a glossy reddish bronze, very ornamental and fresh in appearance. Within, the leaves are almost white, very crisp and tender. It grows very quickly, is ready to cut early and lasts for weeks in the best condition. Pkt. 3c, oz. 6c, 14c, 30c, 60c.

MUSK MELON. Tip Top. This melon grows very large; sweet, juicy, finest flavor, firm fleshed, and excellent to the outside coating. It is very attractive, nearly round, evenly ribbed, moderately netted and sets on sight. Pkt. 4c, oz. 8c, 10c, 20c, 50c, 60c.

Surprise Gem. This is the most delicious melon grown, and on account of its superior qualities is the most desirable for the family garden. We grow it to the exclusion of all other varieties for our own use. Not large, but very prolific. Flesh green and sweet as sugar. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

Princess. The Princess is quite distinct from all other varieties and is one of the best for the home garden. In shape it is nearly round, with heavily netted dark green skin; the flesh is of a rich salmon color, and in flavor is sweet and luscious beyond description. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

Miller's Cream. The flesh is of a rich salmon color, very sweet and melting in quality, and is so very thick that the melon is almost solid, the seed cavity being remarkably small. Melons are of good size. The rind is very thin and the flesh medium. This is one of the finest melons for home use. Rich and fragrant, it is delicious quality. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

Hackenschank. Second early. Grows uniformly to a large size; round in shape, flattened at the ends, flesh green, of most delicious flavor, very productive. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

BLACK-EYED SUSAN WATERMELON. Nutmeg. This is a very early Melon, and on this account, as well as the uniform size it attains, it is very a profitable variety to grow for market. In shape it is round, medium in size, heavily netted, a capital shipper, and very productive. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

Delmonico. A new oval-shaped musk melon of large size, finely netted, and has beautiful orange pink flesh, and is pronounced by connoisseurs to be a melon par excellence. We offer the Delmonico to our customers with full assurance that it will be found one of our most popular varieties for family and market. Pkt. 3c, oz. 6c, 14c, 30c, 50c, 60c.

Banana. Grows about two feet in length, banana shaped, has a peculiar and very high flavor. We consider it a most valuable acquisition. Pkt. 3c, oz. 6c, 14c, 30c. WATERMELON.

BLACK-EYED SUSAN. An new melon of great promise. Oval to oblong in shape, with a light green stripe, hard and tough rind and handsome red flesh; very sweet and delicious. It grows to a large size. Pkt. 6c, oz. 12c, 30c, 60c, $1.50.

Western Giant. Well grown, this melon reaches enormous proportions, which, with its excellent quality, are rivalled by none with all. The rich crimson flesh rivals sugar in sweetness. Pkt. 4c, oz. 7c, 10c, 20c, 50c, 60c.

Triumph. Skin beautifully striped, dark and light green. The flesh is bright red, remarkable for its luscious, crisp and sugary. It is very solid, and excellent for shipping. It grows very large and is enormously productive. Pkt. 4c, oz. 7c, 10c, 20c, 60c, 80c.

Fordhook Early. We have had early melons of good quality, but this is the first extra early watermelon of fine quality that is also of good size. From seed planted on the tenth day of May, large, ripe melons were picked the last week in July. The average weight of the melons is thirty-five pounds each,—a size rarely attained by any other early melon. The rind is tough, making it valuable for shipping. Flesh bright red and very sweet. Pkt. 4c, oz. 10c, 14c, 30c, 60c, $1.00.

Spectra Extra Early. This melon is deep scarlet, remarkably solid, and in delicious sugary flavor surpasses all others. The average weight is about fifteen pounds. The seeds are very small, being about half the size of other melon seeds. They are a valuable addition to the larger sorts, and for family use are unequaled. Pkt. 4c, oz. 8c, 14c, 30c, 60c.

Hungarian Honey. This is without question the finest melon for market and family. The melons are nearly round in shape, dark in color, and weigh about ten pounds. The flesh is of a brilliant red color, and absolutely stringless, melting and surprisingly sweet and luscious, of very rich honey flavor. Pkt. 4c, oz. 8c, 14c, 30c, 60c, 80c.

Varieties. A very early variety, noted for its large size and good productivity. It is...
**WATERMELON—CONTINUED.**

of a light green and gray color, smooth and well proportioned. Their flavor is excellent.

A very desirable sort to plant for the table. Pkt. 3c, oz. 6c, $1.50, $4.00.

**Peerless.** Flavor always good; sweet and delicious; flesh solid and of rich scarlet color; seeds always white. The form is oblong, the rind is quite thin and dark green in color. Pkt. 3c, oz. 6c, 4 lb. 15c, $3.00.

**Dark Icing.** In form round, white seeded. This fine melon can scarcely be praised too highly, on account of its solidity, bluish red, and rich, luscious, sugary flavor. Pkt. 3c, oz. 6c, 4 lb. 15c, $4.00.

**Florida Favorite.** It is oblong in shape, growing to a very large size; rind dark, with light green stripes, flesh light crimson, crisp, and deliciously sweet; seeds rather small and of light creamy white color. Pkt. 3c, oz. 6c, 4 lb. 15c, $4.00.

**Dixie.** A new and very desirable variety; has tough rind, long keeping qualities, and is very productive. It is entirely free from stringiness. Vines vigorous and hardy. Melons medium size to very large. Color of skin dark green, striped with lighter shade. Flesh bright scarlet and very luscious, ripening close to the rind. Our stock of this variety is very carefully selected. Pkt. 3c, oz. 6c, 4 lb. 15c, $4.00.

**Koib’s Gem.** The flesh is bright red, firm, coarse grained, but exceedingly sweet and juicy. The rind is thin, but very hard and firm, forming a distinct shell, which protects the melon and also gives it remarkable keeping qualities; considered the best shipper of all kinds. Pkt. 3c, oz. 6c, 4 lb. 15c, $4.00.

**Gray Monarch.** This is one of the largest melons we have grown. The outside skin is a mottled gray. The flesh is a bright crimson, sugary, and of deliciously flavor. This is one of the later varieties, and ripened perfectly with us last year. To all those who want a large and deliciously sweet melon, we say give this variety a trial. Pkt. 3c, oz. 6c, 4 lb. 15c, $4.00.

**Sugar Sweet.** This is unquestionably the sweetest melon grown; its delicious flavor will make it a prime favorite with all. An early and very productive variety. Pkt. 3c, oz. 6c, 4 lb. 25c, 4 lb. 35c, $4.00.

**Citron.** Standard everywhere for making preserves; slightly striped, red in shape. Makes the most beautiful, delicious, clear, transparent preserves. You should have this variety in your garden. It grows wonderfully prolific. Pkt. 3c, oz. 5c, 4 lb. 10c, 4 lb. 20c, $3.00.

**SELECTED ONION SEEDS.**

**Early Red Globe.** This is a large early onion; very mild and delicate in flavor. Pkt. 3c, oz. 10c, 4 lb. 25c.

**Yellow Dutch.** A fine yellow variety, of good size, white flesh, of mild flavor, and keeps well. A great yielder. Pkt. 3c, oz. 6c, 4 lb. 35c, $2.00.

**White Portuguese.** Very large, early, uniform in size, fine shape, white, tender, and of very mild flavor. Pkt. 3c, oz. 6c, 4 lb. 30c, $1.00.

**Large Red Wethersfield.** This is a standard variety and favorite onion. Large size, skin deep purplish red, firm round, somewhat blanched, all purple white, makes very fine grained, very productive and the best keeper. Pkt. 3c, oz. 7c, 4 lb. 25c, $2.00.

**DANvers Yellow Globe.** This is a popular yellow onion, growing to a large size, a good keeper, and of pleasant flavor. My stock is exceedingly fine. Pkt. 3c, oz. 6c, 4 lb. 25c, $3.00.

**TOP ONION SETS.**

The onions are ready very quickly for table use, and the matured bulbs are very sweet and mild, certainly among the best for home and market purposes. Postpaid, pt. 35c, qt. 50c.

**Parsnip.**

**Fine Sugar.** Long, white, smooth, and considered by all to be the best flavored parsnip grown. A universal market variety. Pkt. 3c, oz. 6c, 4 lb. 15c, $2.00.

**Dwarf Curled.** Dwarf and tender, leaves beautifully curled. Pkt. 4c, oz. 8c, 4 lb. 25c.

**PARSLEY.**

**Double Curled.** Dwarf and tender, leaves beautifully curled. Pkt. 4c, oz. 8c, 4 lb. 25c.
**SALISFY**

This is the popular Vegetable Oyster Plant, Mammoth Sandwich Islands. Grows uniformly to an extra large size; of superior quality and very fine flavor. The very best. Pkt. 5c; oz. 10c; lb. 50c.

**SPINACH.**

Spinach is not unequalled for early greens.

**SQUASH.**

Early White Bush. A highly esteemed early variety, grown almost exclusively for first crops. From the hard texture of the rind it is well suited for shipping; very productive, and valuable alike for market and family purposes. Pkt. 3c, oz. 10c, lb. 50c.

Summer Crookneck. Of dwarf, bushy habit and extremely productive. Flesh is greenish yellow, very tender and of the most agreeable flavor, so much so that it is the most highly esteemed of all the summer squashes. Pkt. 3c., oz. 5c., 1 lb. 50c.

Perfect Gem. This variety is equal desirable either as summer or winter squash: wonderfully productive; flesh fine-grained and cooks dry and sweet, rich, delicious flavor. Pkt. 3c., oz. 5c., 1 lb. 50c.

Eureka. The flesh of this squash is very thick and fine-grained, and either steamed or boiled is of extra fine quality, and when baked the Eureka is simply perfection itself. It weights 30 to 25 lbs. and for a squash of this size, is wonderfully prolific; a vigorous vine producing two to three large sized fruits. Pkt. 5c., oz. 10c., 1 lb. 50c.

Boston marrow. The skin is rich, deep orange making the squash of a very handsome size and perfectly smooth. Good for all purposes. Pkt. 3c, oz. 10c, 1 lb. 50c.

Pepo. Popularly one of the earliest, produces solid fruits of medium size, uniform and smooth. Much used for canning; of handsome medium size, very smooth and symmetrical. The best variety for family use. Pkt. 3c, oz. 10c, 1 lb. 50c.

Lavington’s Beauty. Few tomatoes can equal this desirable variety. The fruits are handsome, medium size and perfectly smooth. Good for all purposes. Pkt. 3c, oz. 10c, 1 lb. 50c.

Purple Queen. The fruit is rich, deep red, resembling some peaches; the color is deep rose blended with orange amber. Very productive and of delicate flavor. Pkt. 3c, oz. 10c, 1 lb. 50c.

Golden Queen. This is a beautiful yellow variety of superior quality. It is solid, smooth, large in size, ripens early, and a very handsome variety. Pkt. 3c, oz. 10c, 1 lb. 50c.

**TOBACCO.**

Connecticut Seed-Leaf. A hardy variety, does well in the North. Pkt. 4c., oz. 10c.

**TURNIP AND RUTA BAGA.**

Extra Early Purple Top. One of the earliest, and the finest for table use. Of a very fine quality; quick growing. Pkt. 3c, oz. 10c.

Yellow Aberdeen. A fine yellow fluted variety. Pkt. 3c, oz. 10c, 1 lb. 50c.

Large White Globe. A standard variety for family use, market and stock. Great yielder, and of excellent quality. Pkt. 3c, oz. 10c, 1 lb. 50c.

**YELLOW PRINCE TOMATO.**

Rally Early. A charming early sort, of the most beautiful appearance, and lightest qualities imaginable. A variety that cannot fail to please. Pkt. 3c, oz. 10c, 1 lb. 50c.

Atlanic Prize. This is the most popular first early tomato, producing huge fruits ahead of any variety that have yet come to our notice. Bears immense clusters of smooth symmetrical fruit, of fine quality. Pkt. 3c, oz. 10c, 1 lb. 50c.

Buckeye Slate. This is one of the largest tomatoes grown. Perfectly smooth, solid and well ripened to the stem. Color very bright red, making it a very popular variety. Pkt. 3c, oz. 10c, 1 lb. 50c.

Royal Red. This is a first class main crop variety, suited for the shipper, market and private gardener. The color is a beautiful red, without the least tinge of purple. As to size and quality it is all that can be asked. Pkt. 3c, oz. 10c, 1 lb. 50c.

**MAMMOTH CHILI.**

This is the largest of all squashes, has very thick flesh and is unsuitable for stock feeding. Pkt. 4c, oz. 10c, 1 lb. 50c.

**Mamma Chilli.**

This is the largest of all squashes, has very thick flesh and is unsuitable for stock feeding. Pkt. 4c, oz. 10c, 1 lb. 50c.

**TOMATO.**

Honor Bright. A peculiar new variety, of great solidity and long-keeping quality; which it makes it desirable for shipping. A characteristic is the changes of color, first it is light green, then an attractive waxy white, then lemon, changing to red. It’s very prolific, and its table qualities unsurpassed. Pkt. 5c.

Yellow Prince. A dwarf upright growing yellow variety, of compact habit, a dozen plants can be grown on two yard square. It is solid, and the flavor is sprightly and pleasant. Pkt. 10c.
